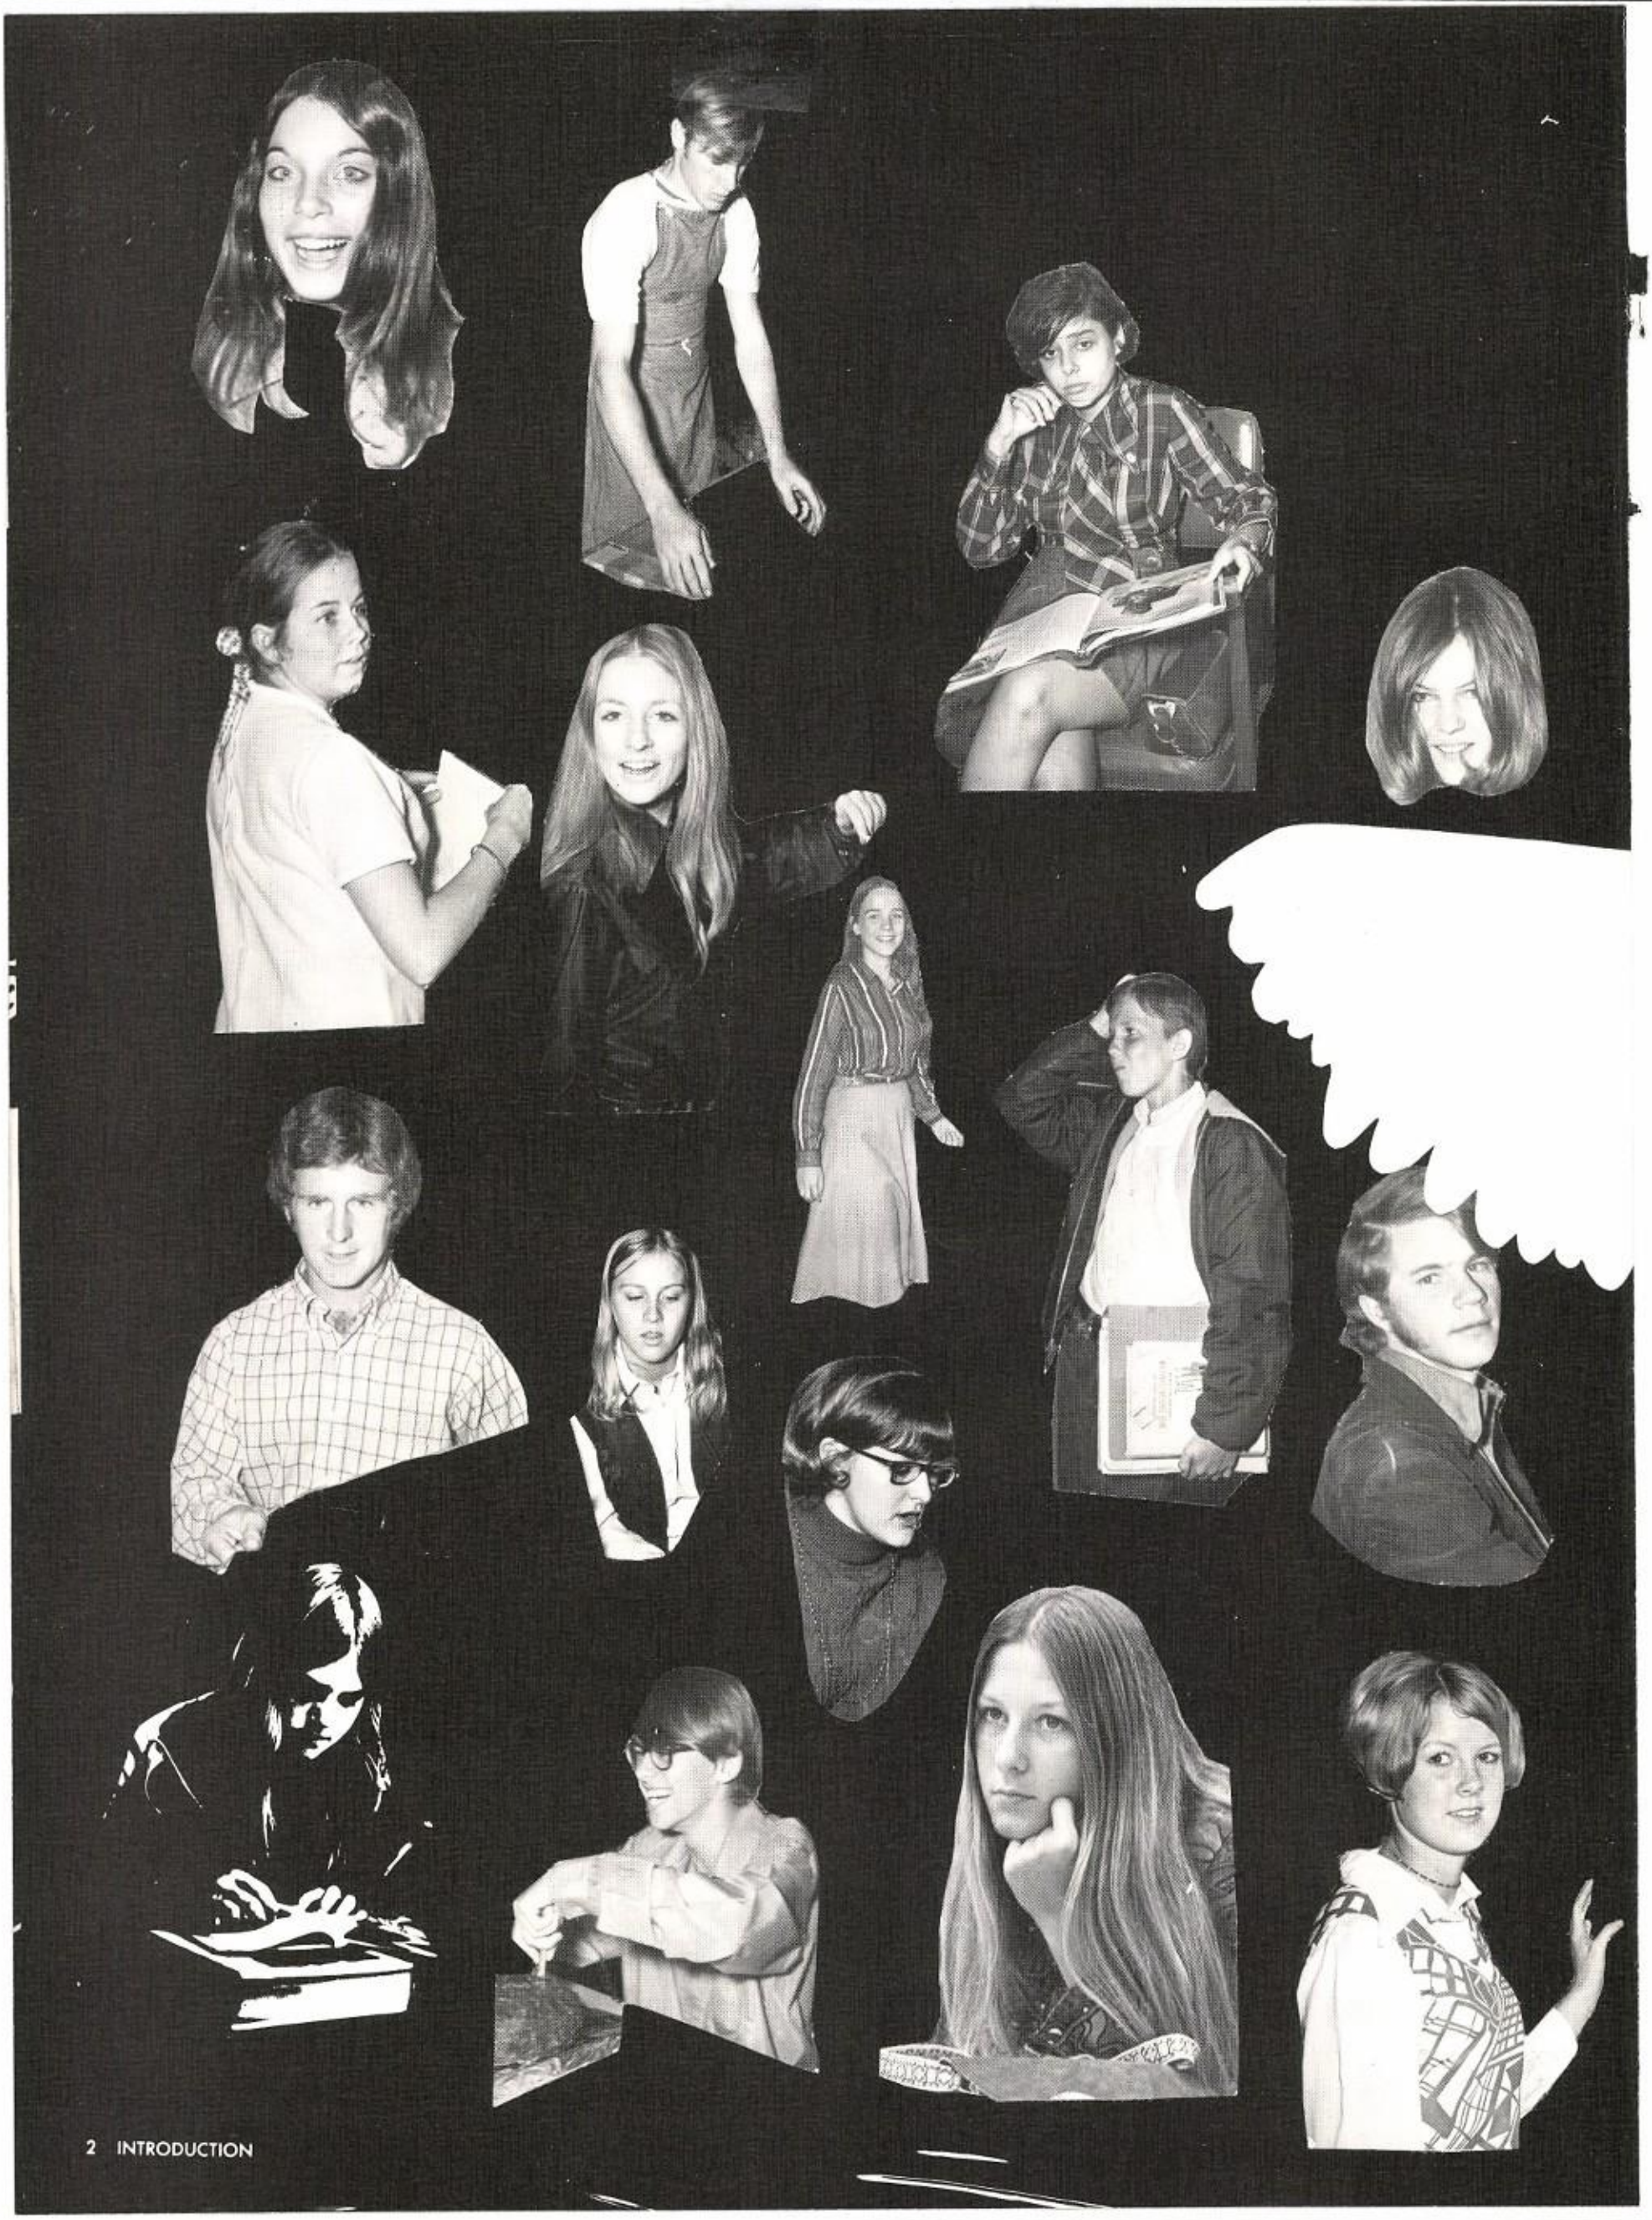
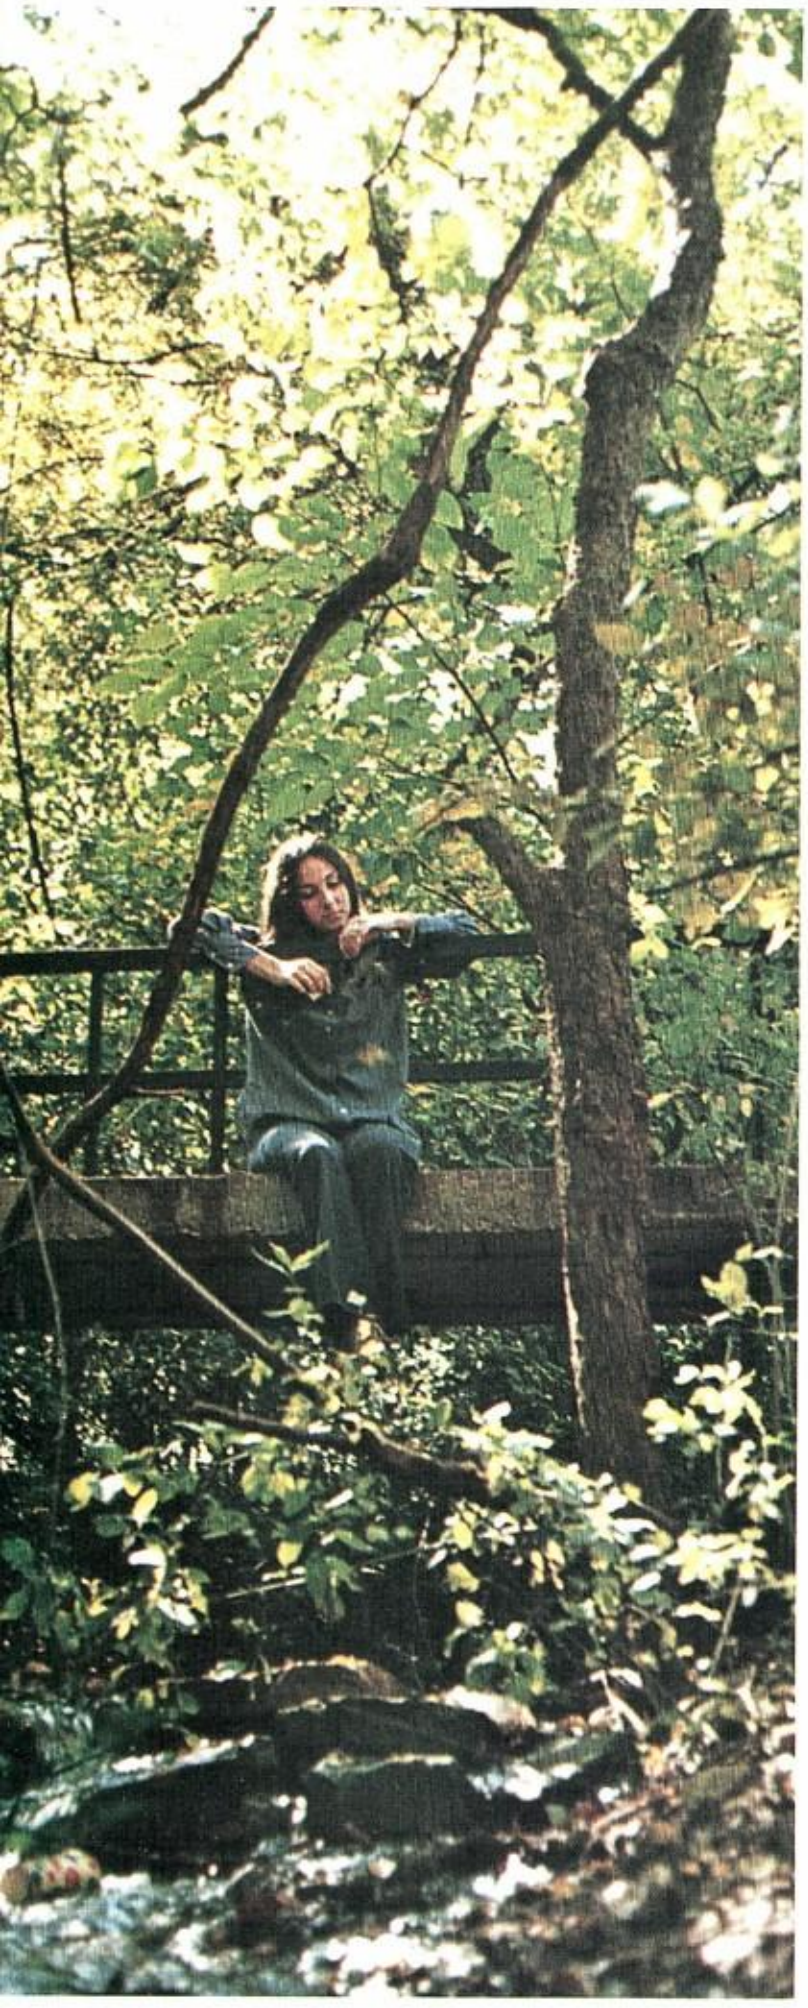
'71 Yee-Haw Vol. 4

Southwest High School
Fort Worth, Texas
Vicki Turner, Editor

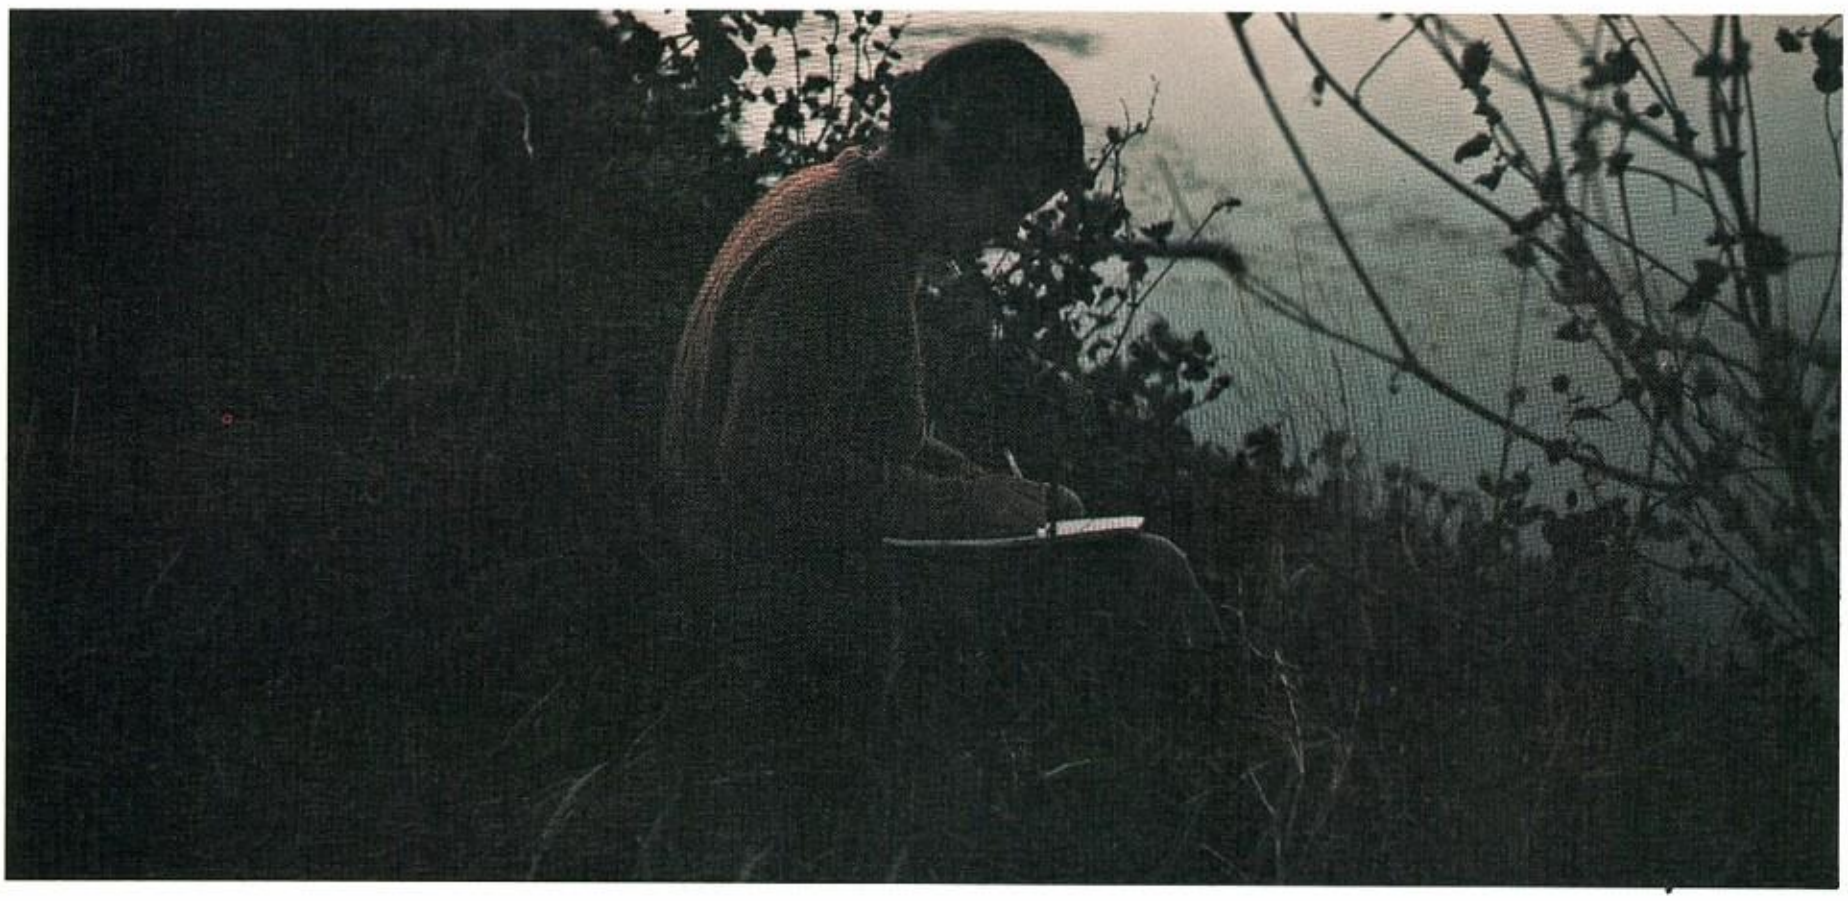


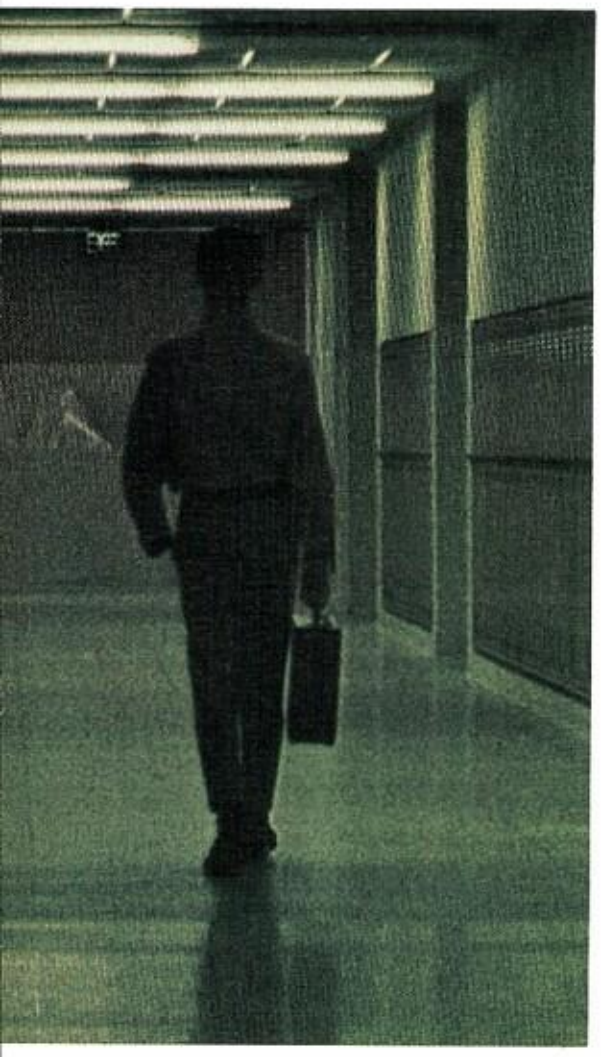
There are those that do not imitate;

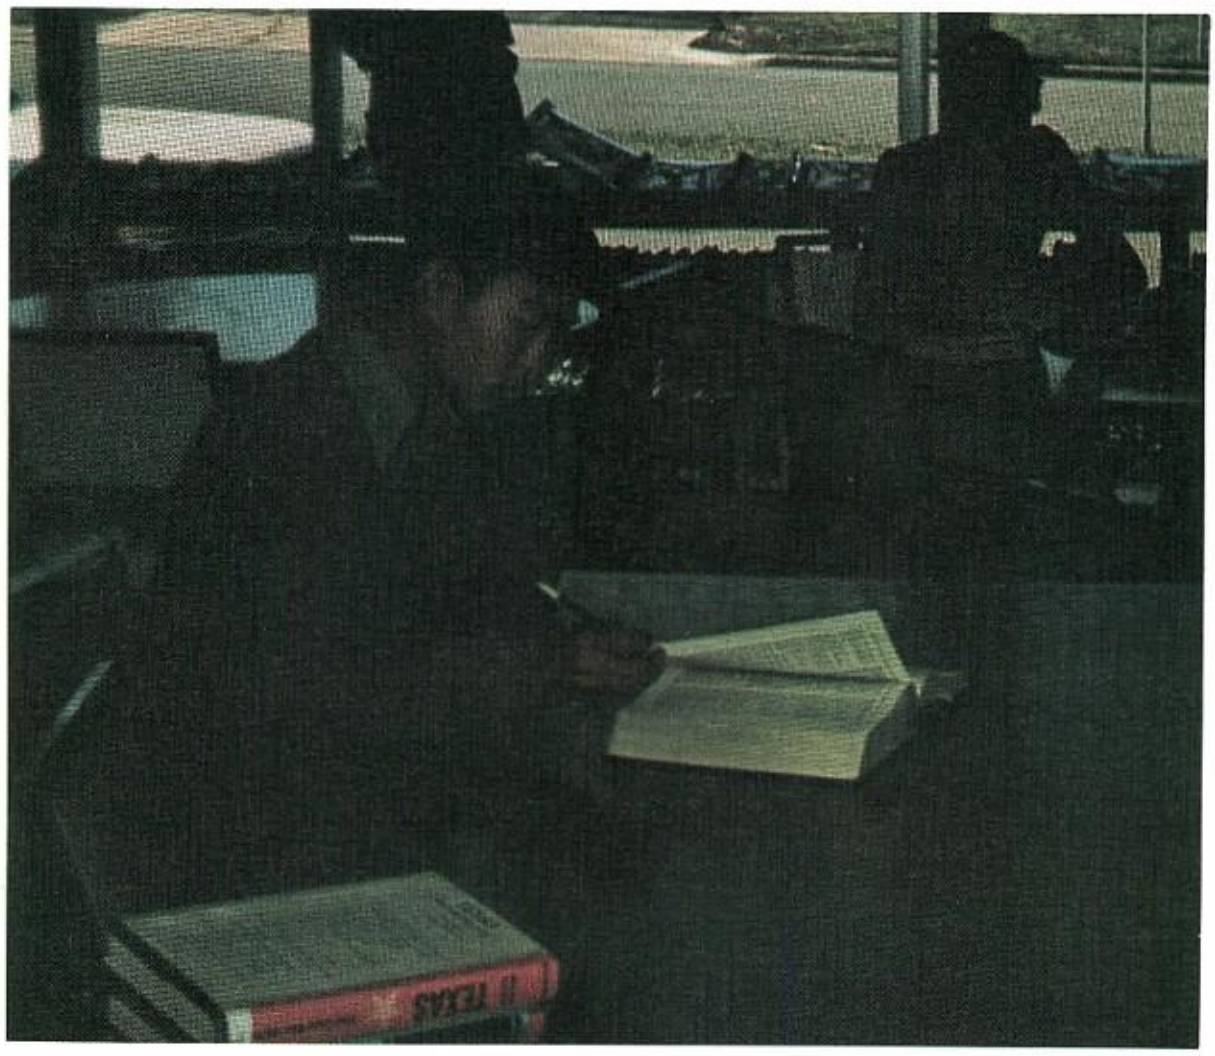
Always looking, seeking, needing something more than what they are.

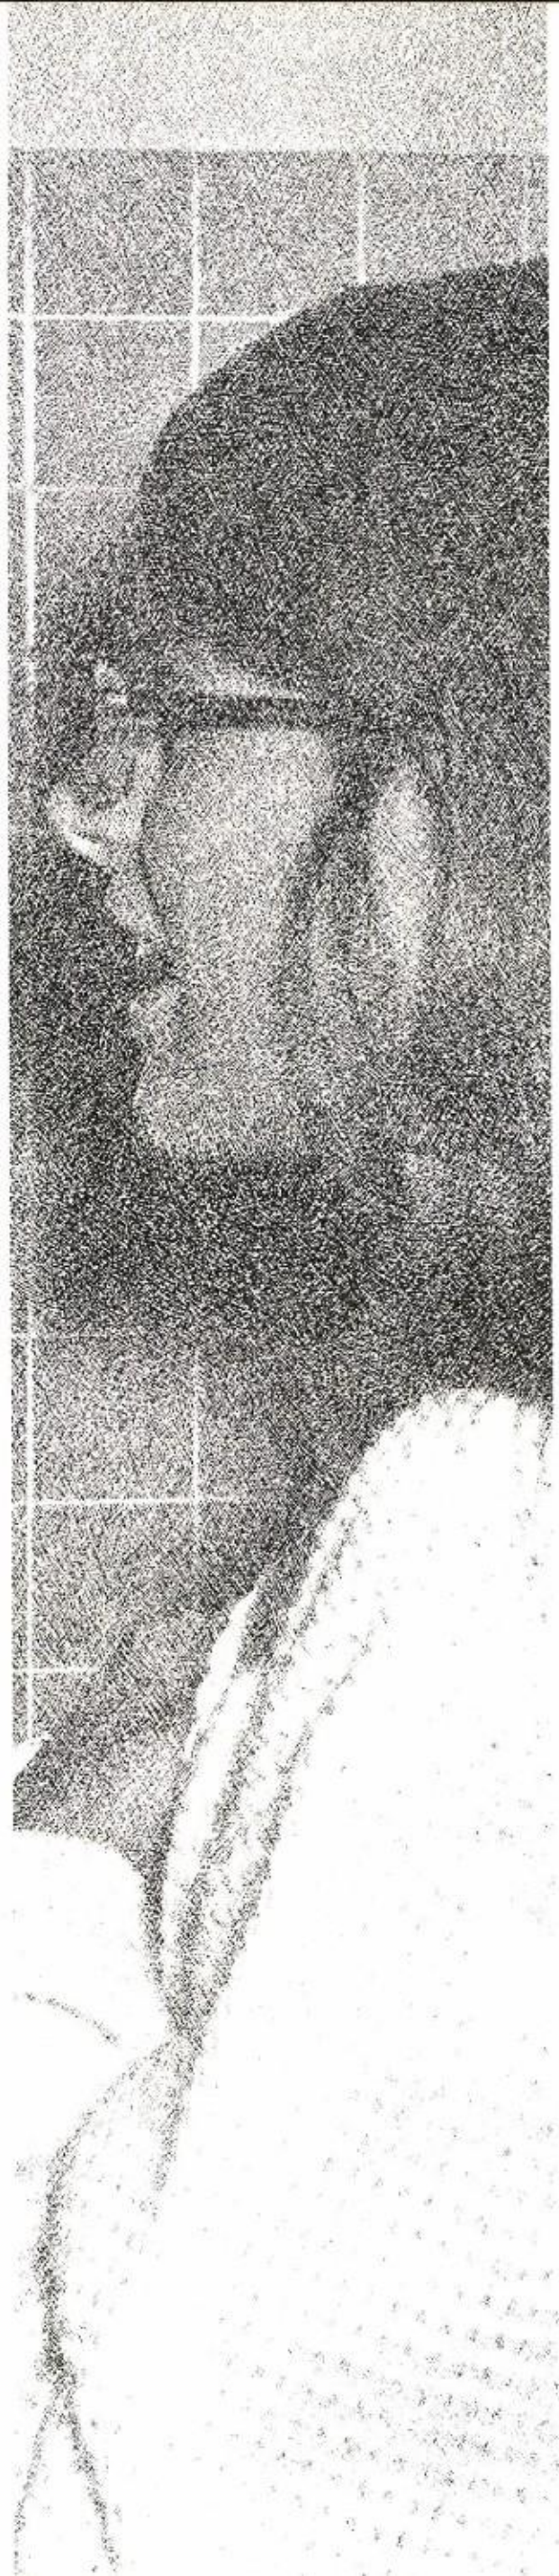


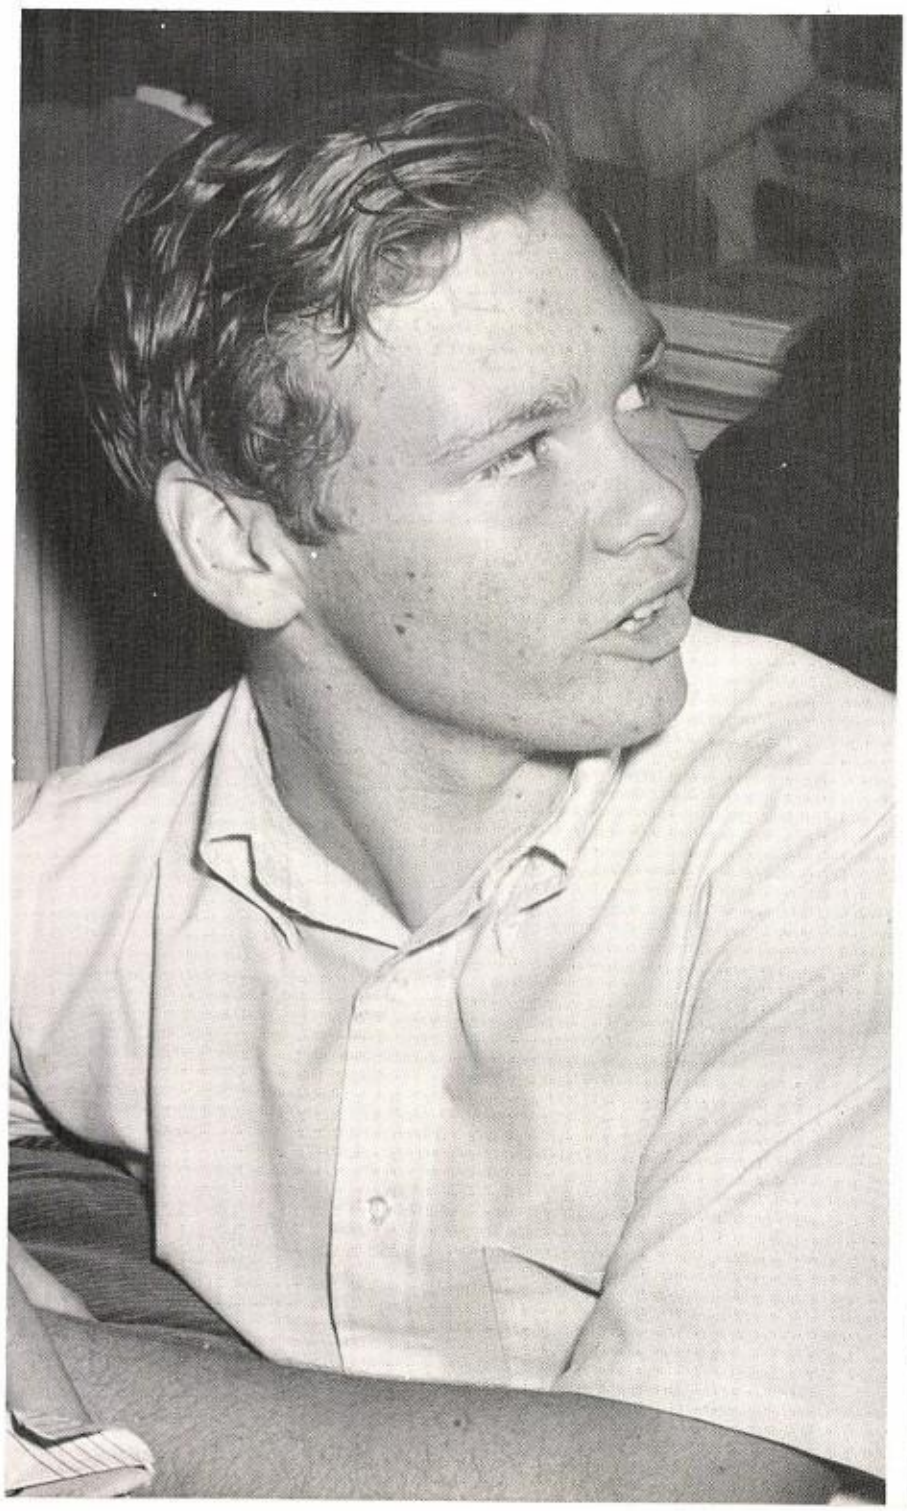
There are those who are beings complete unto themselves, a source — alike, yet unalike.

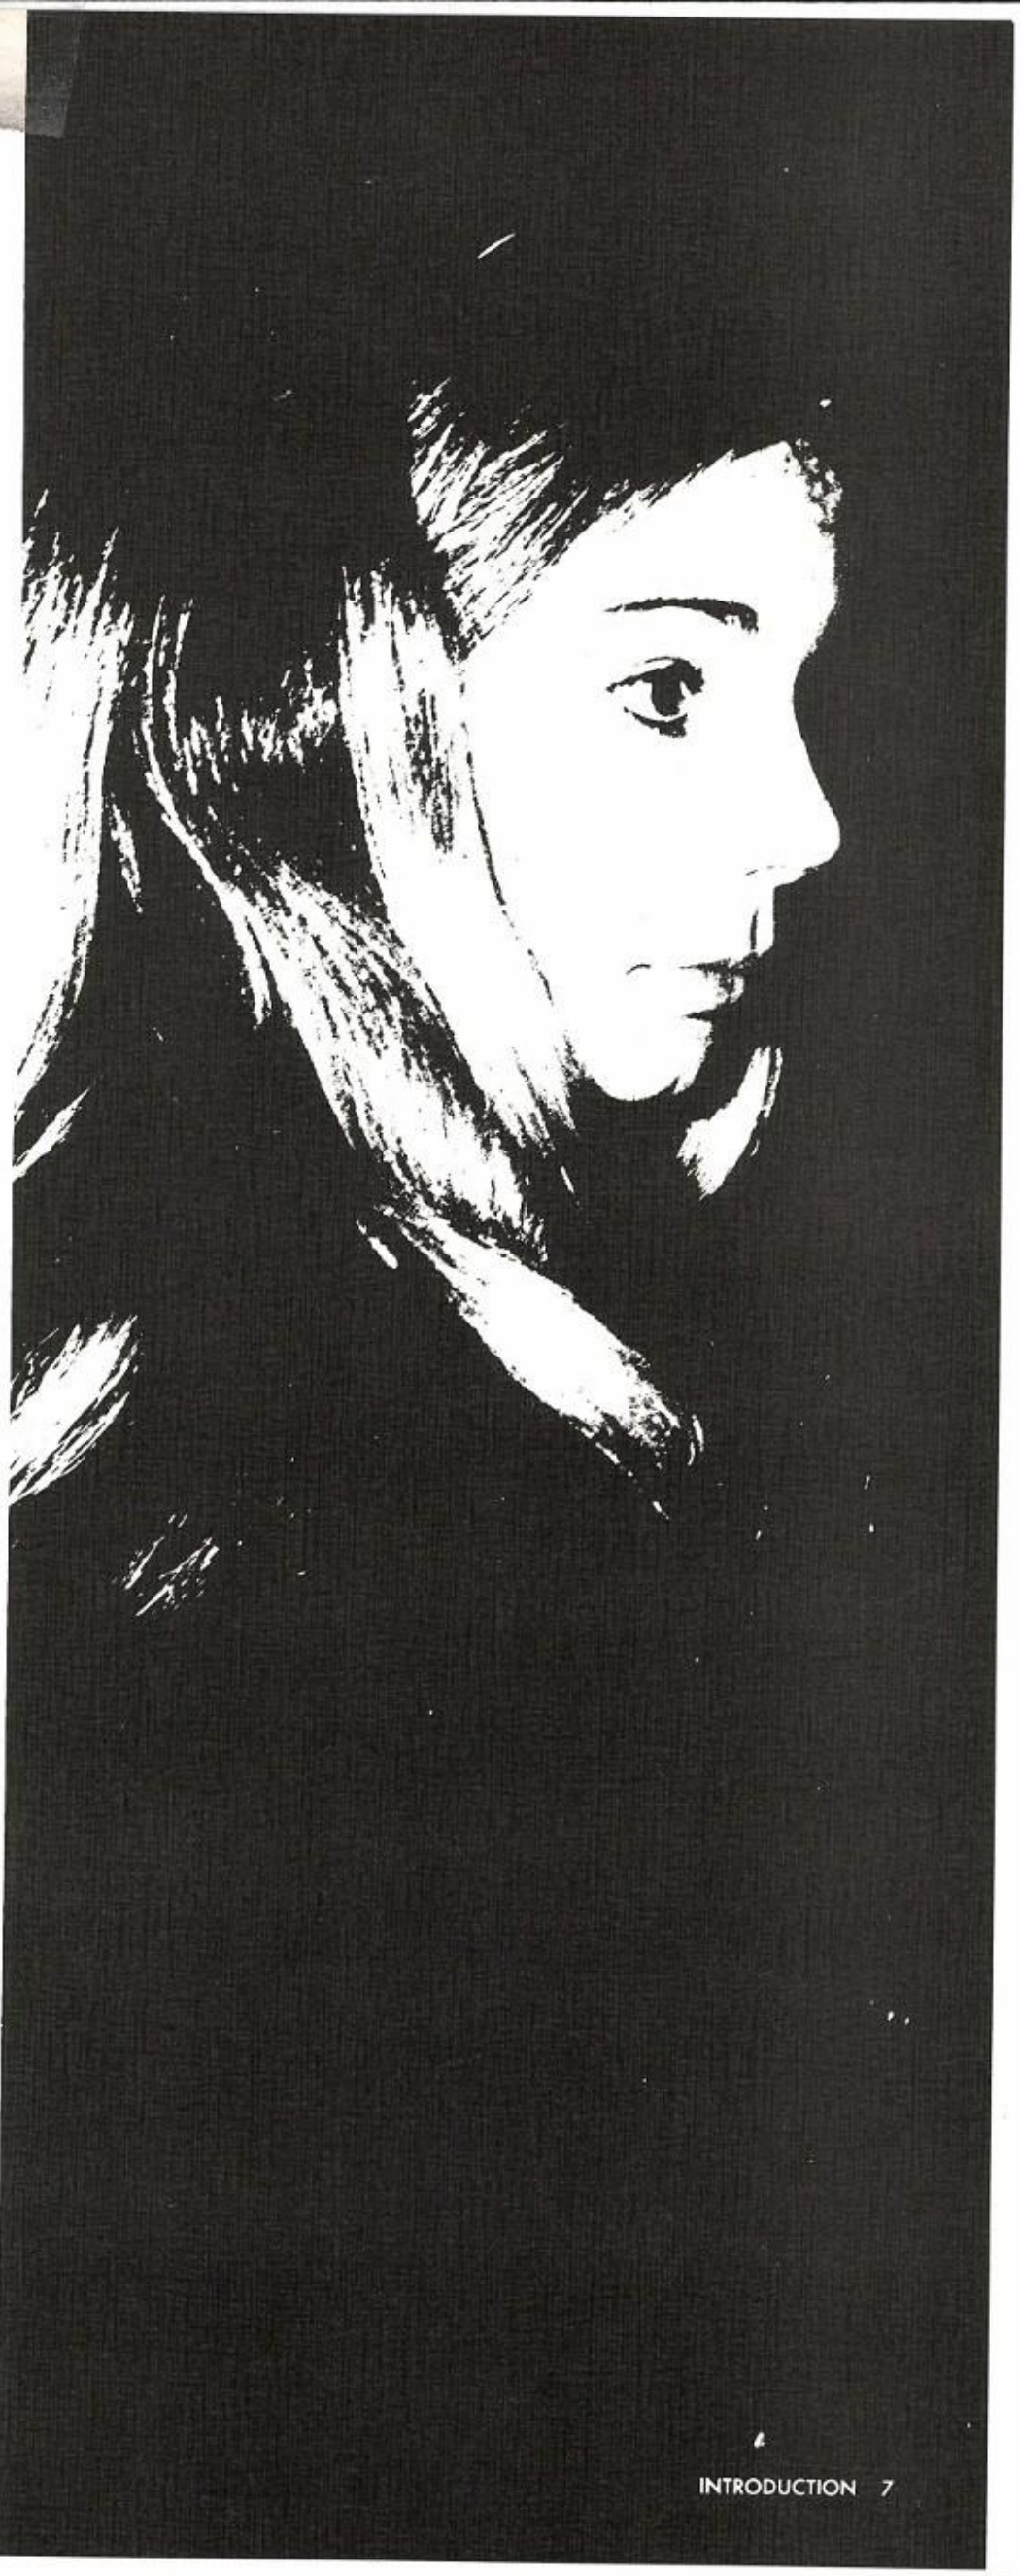




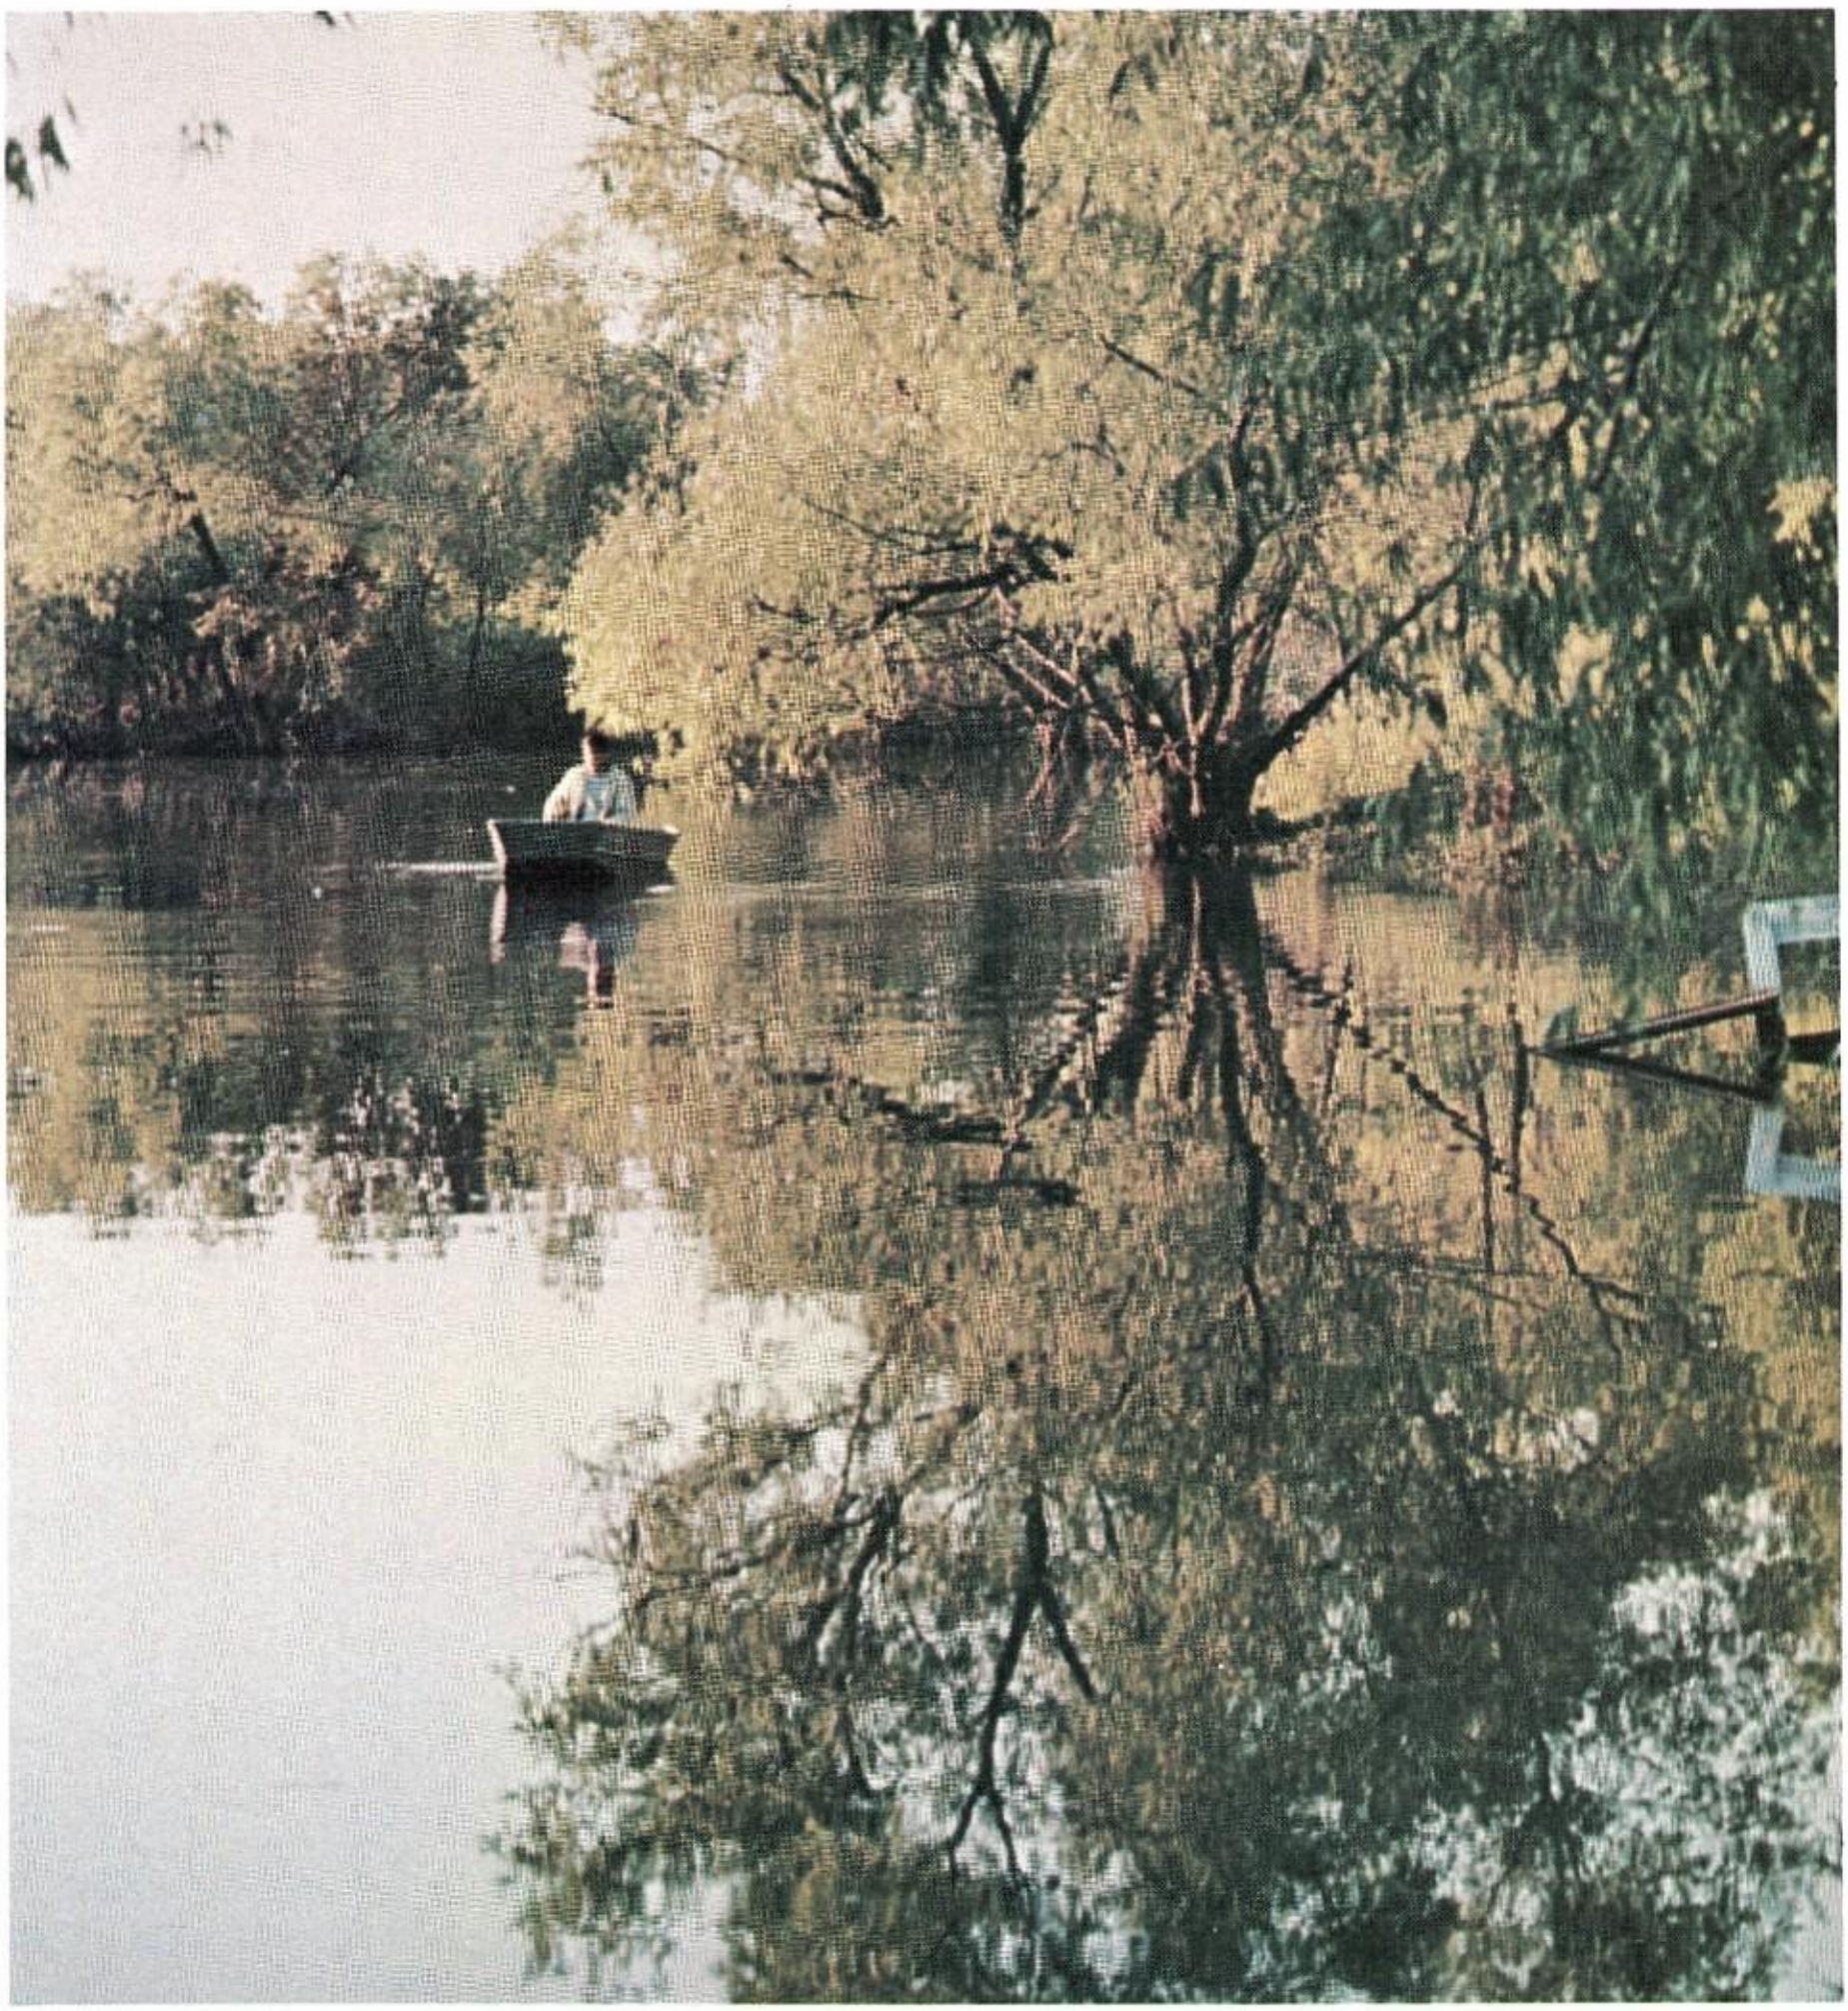




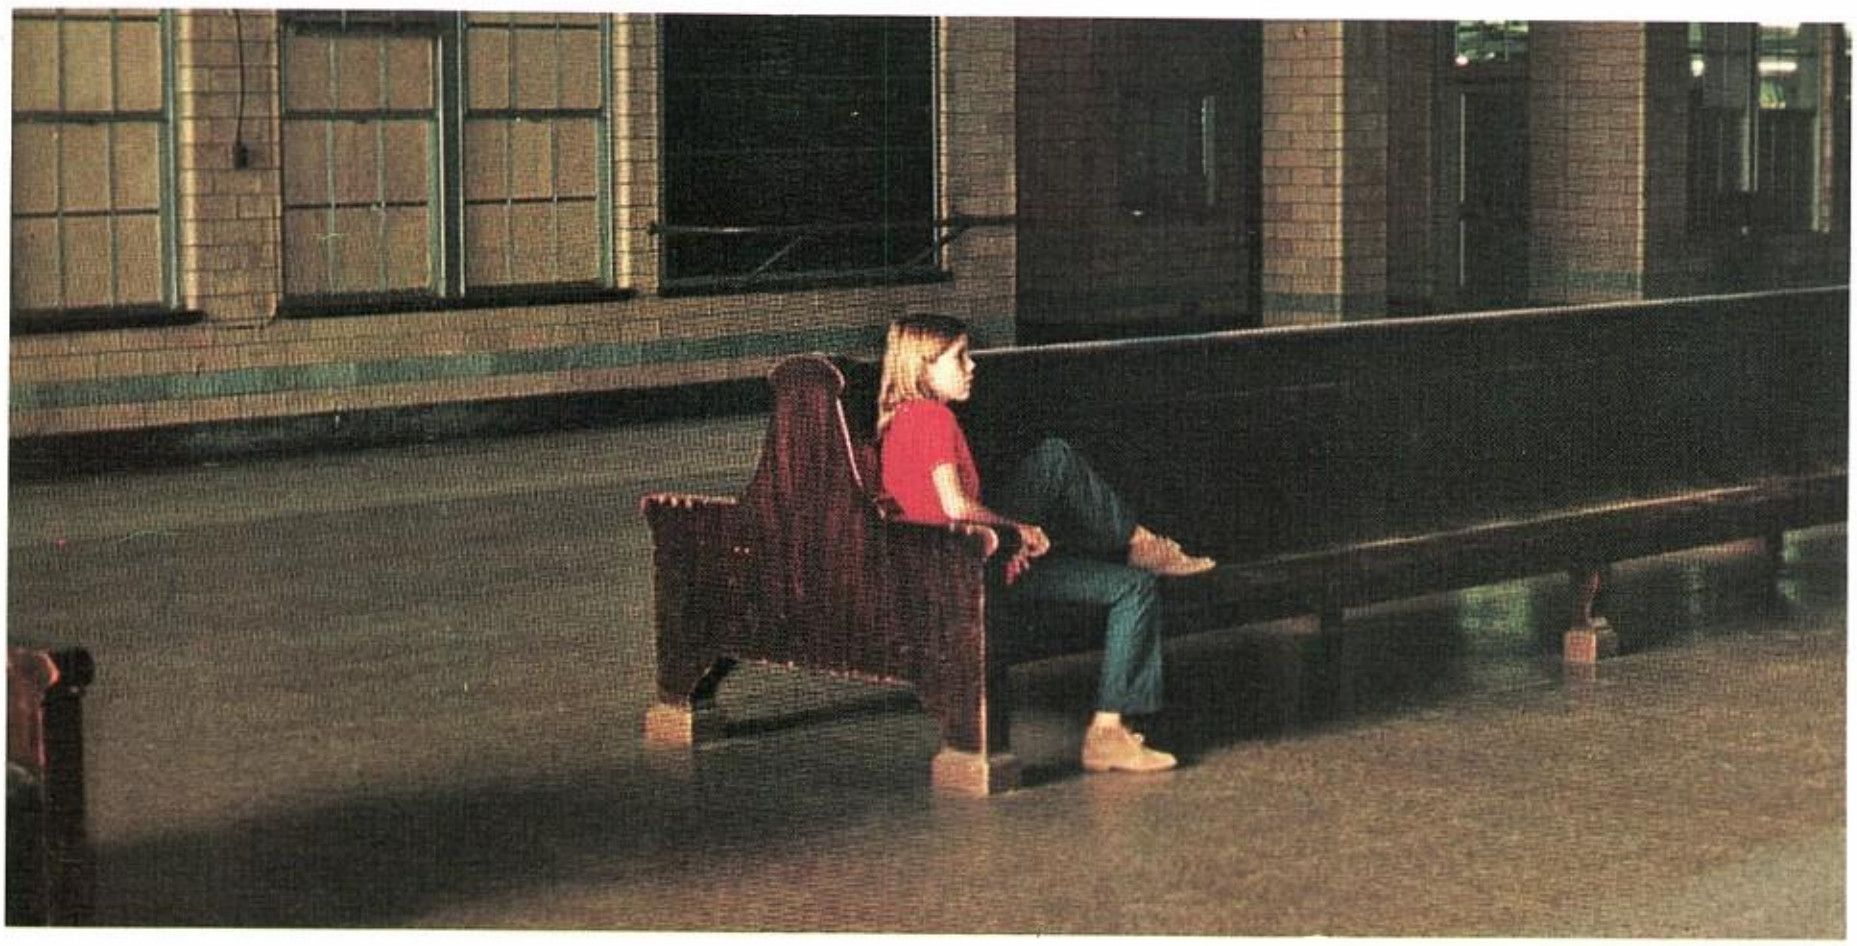


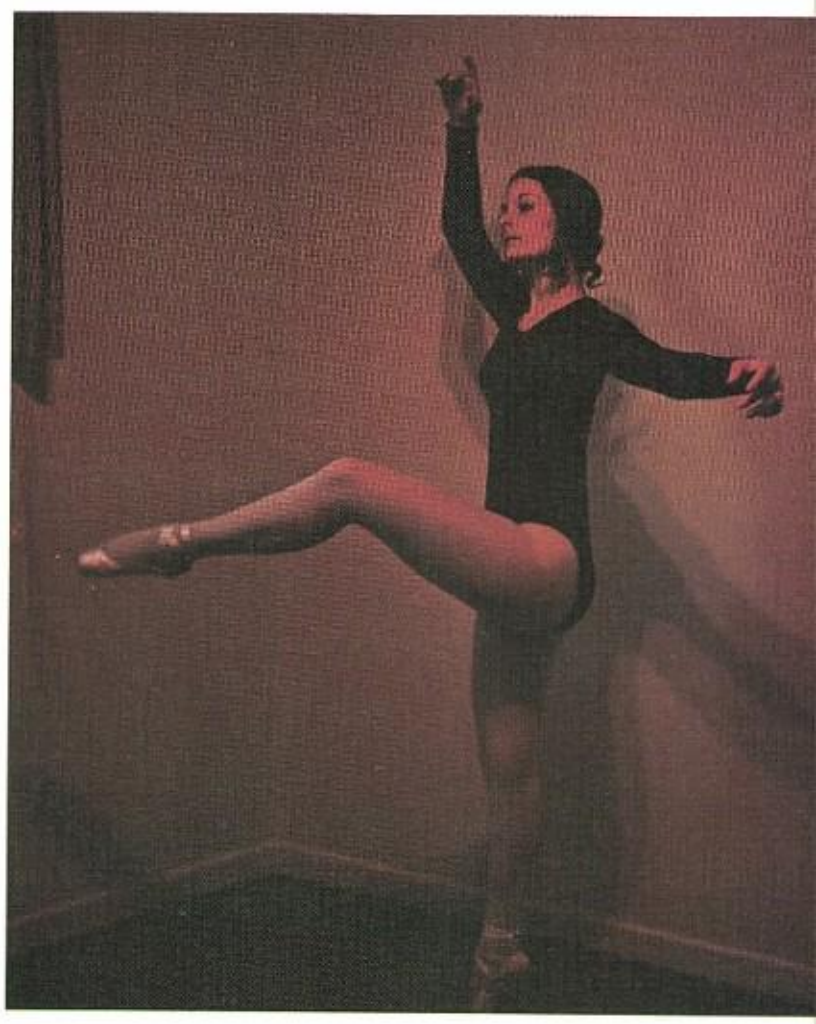


Comfort is no longer found in a small circle of friends.

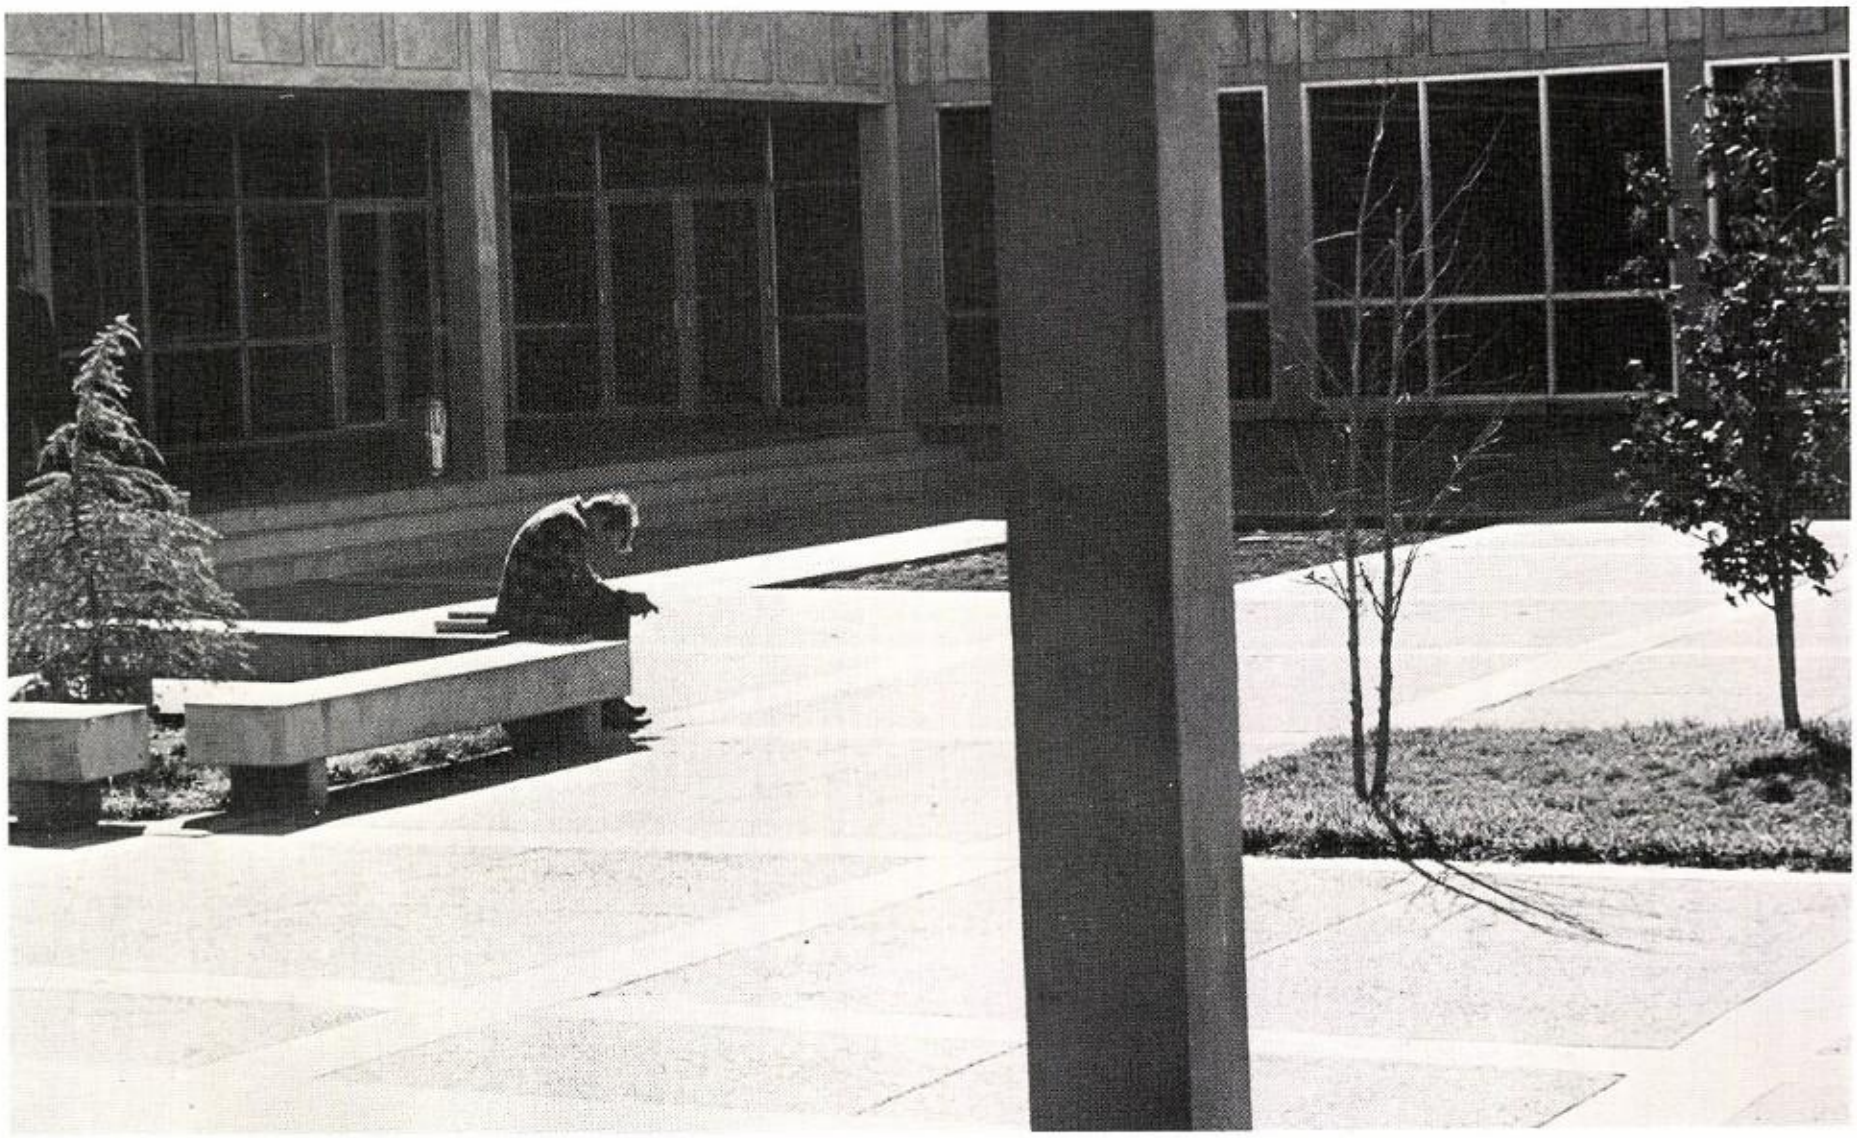


It is important to stand alone, to thrive on singular greatness.

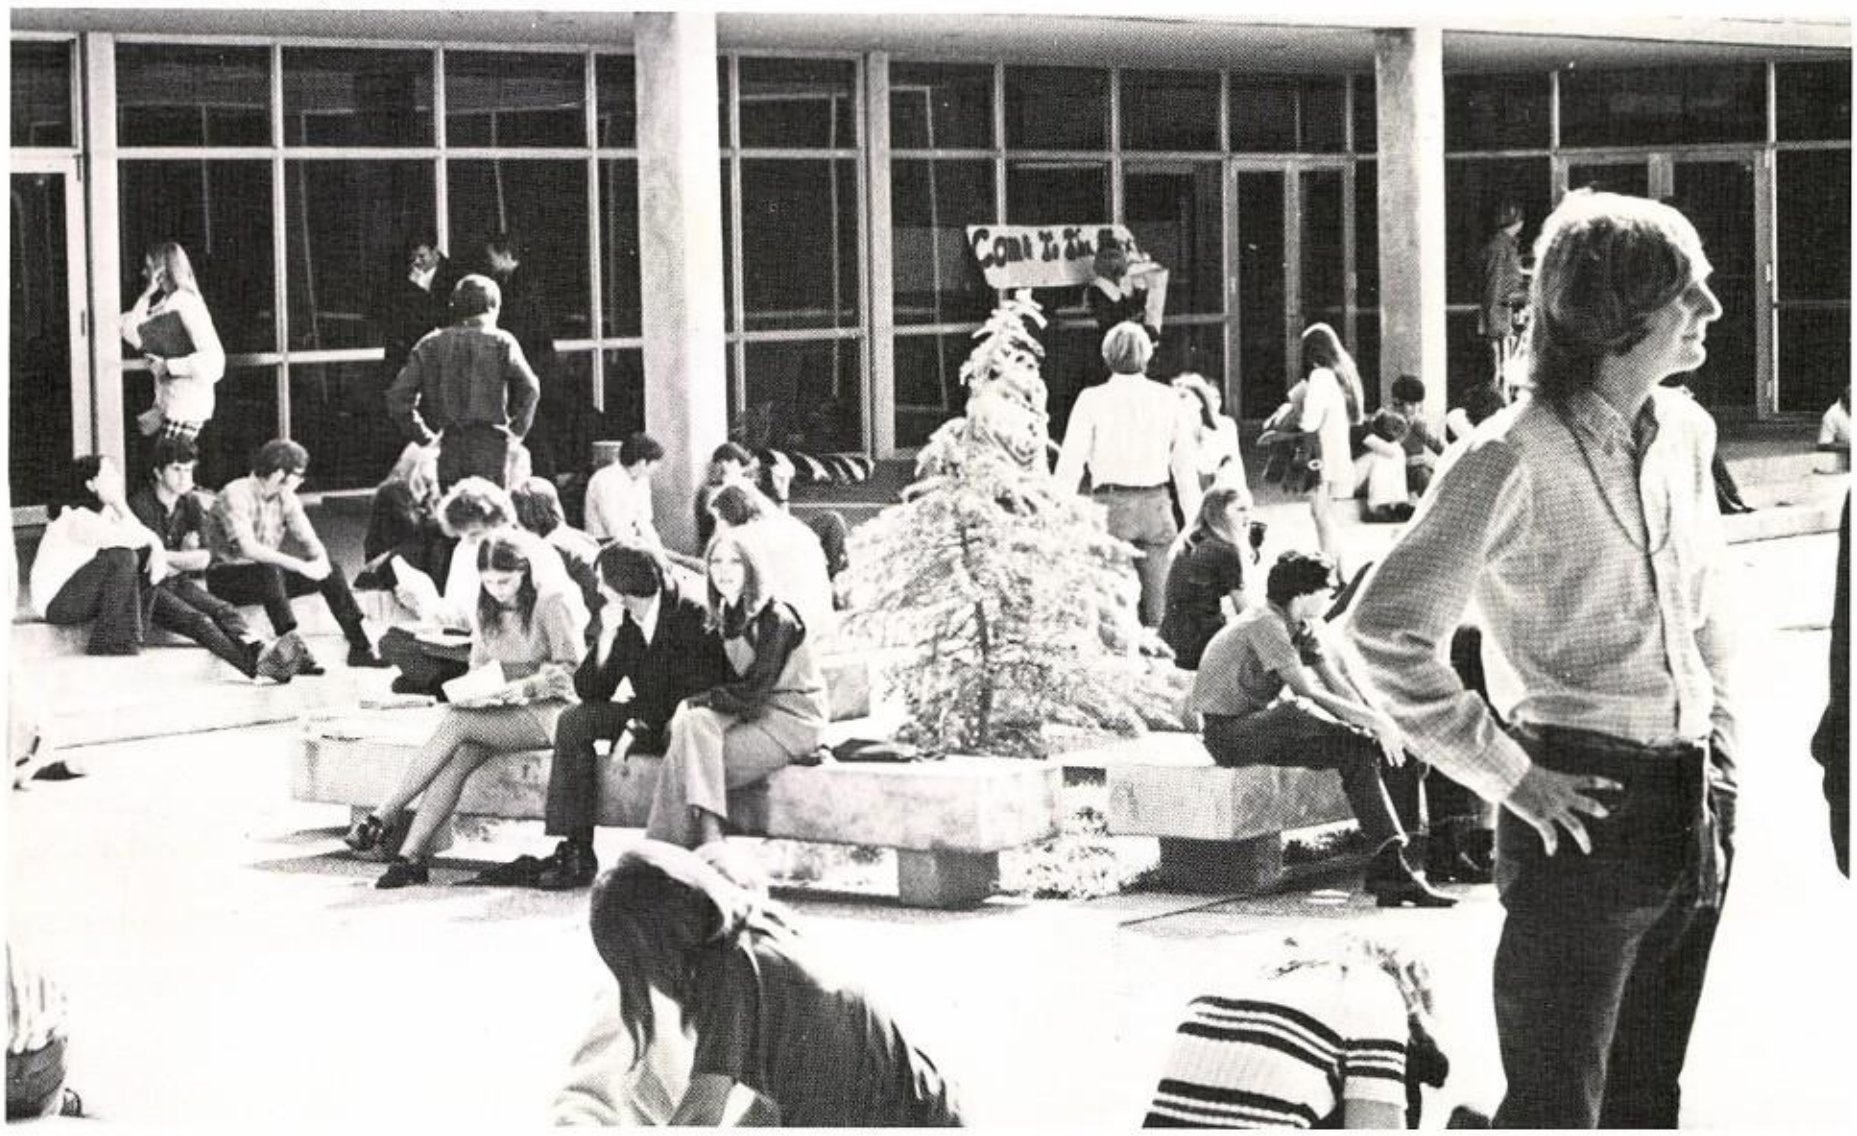


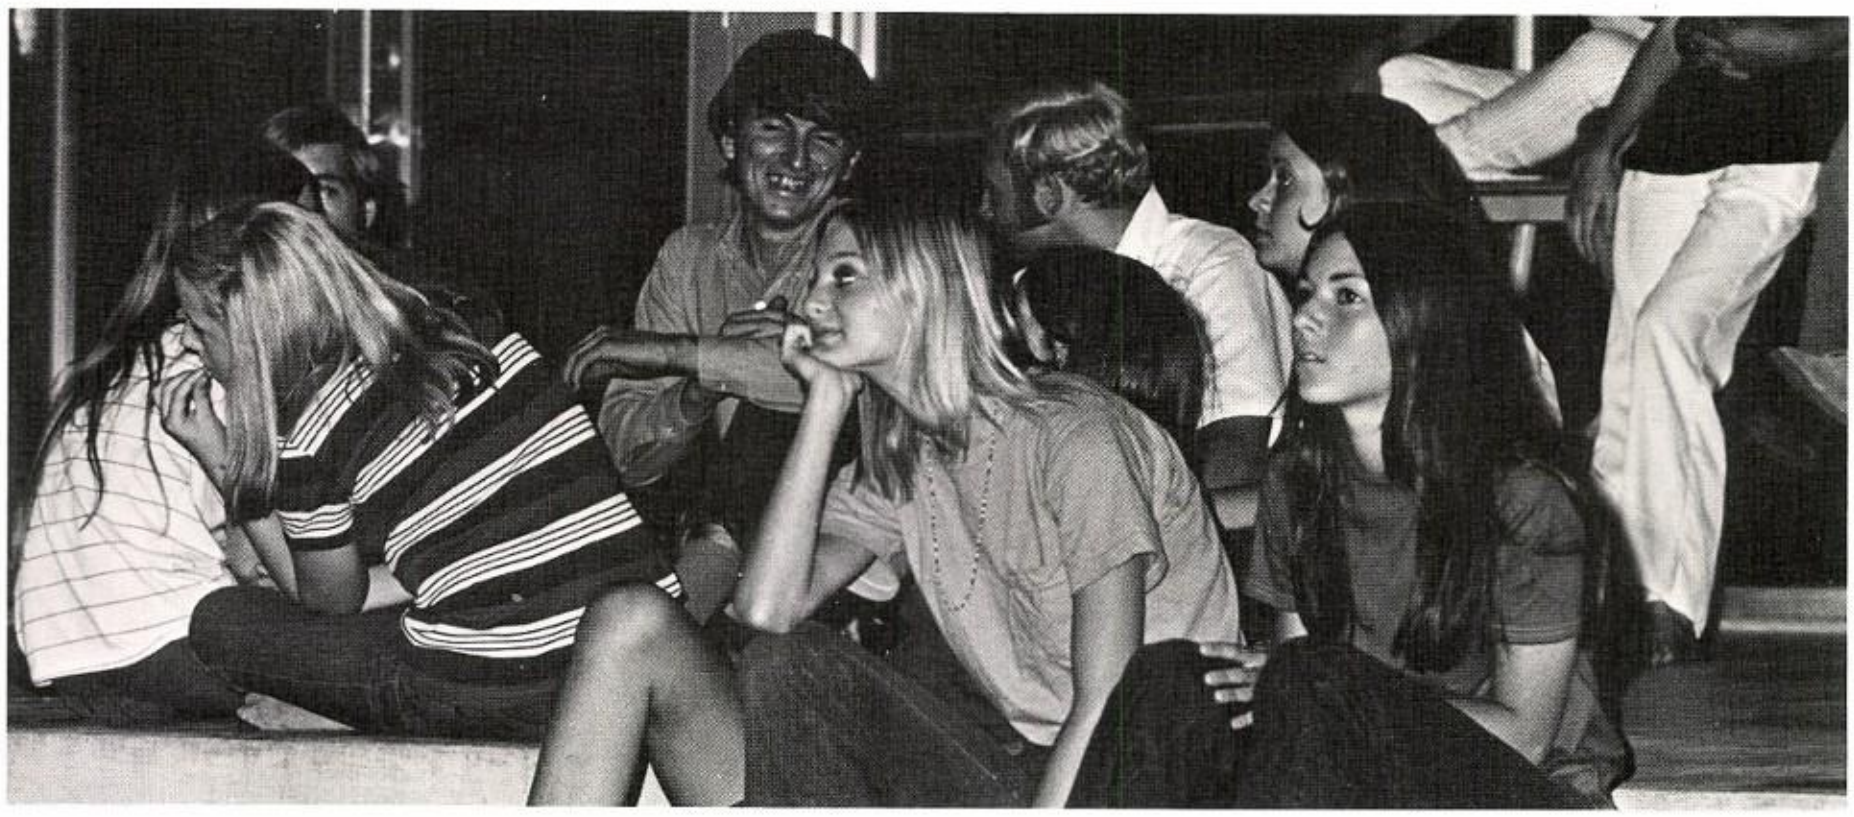


In the multitude, the mass, the whole,

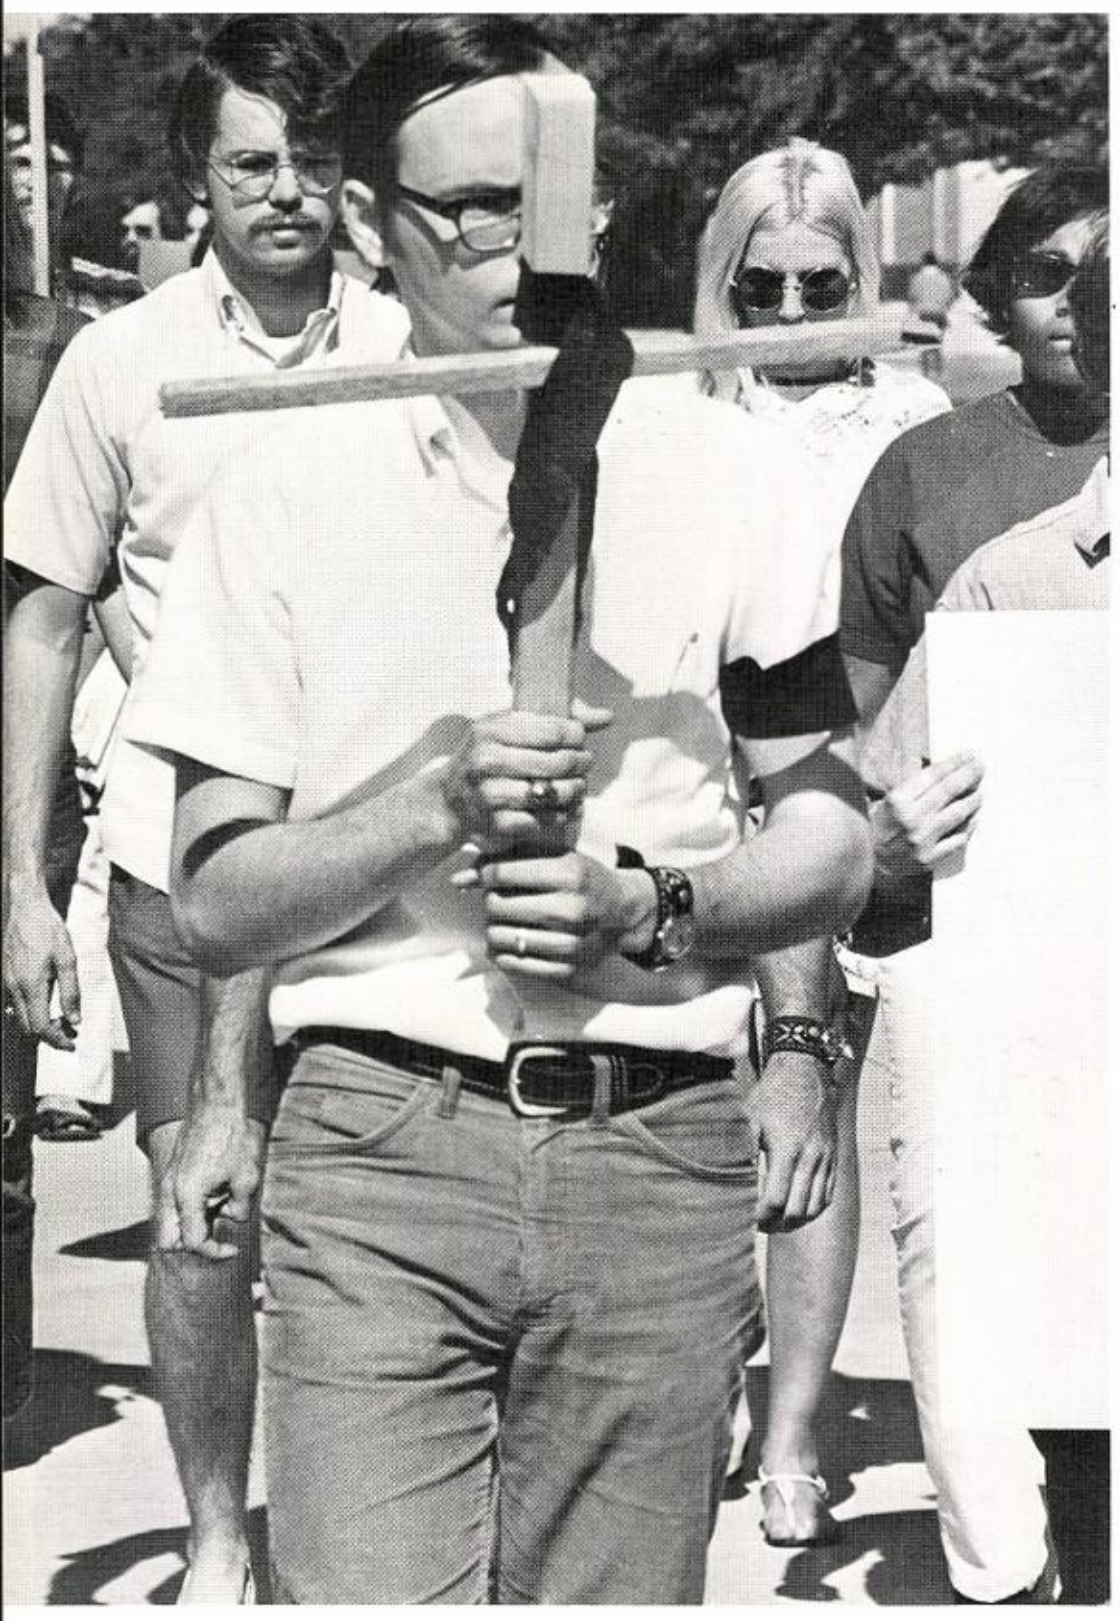


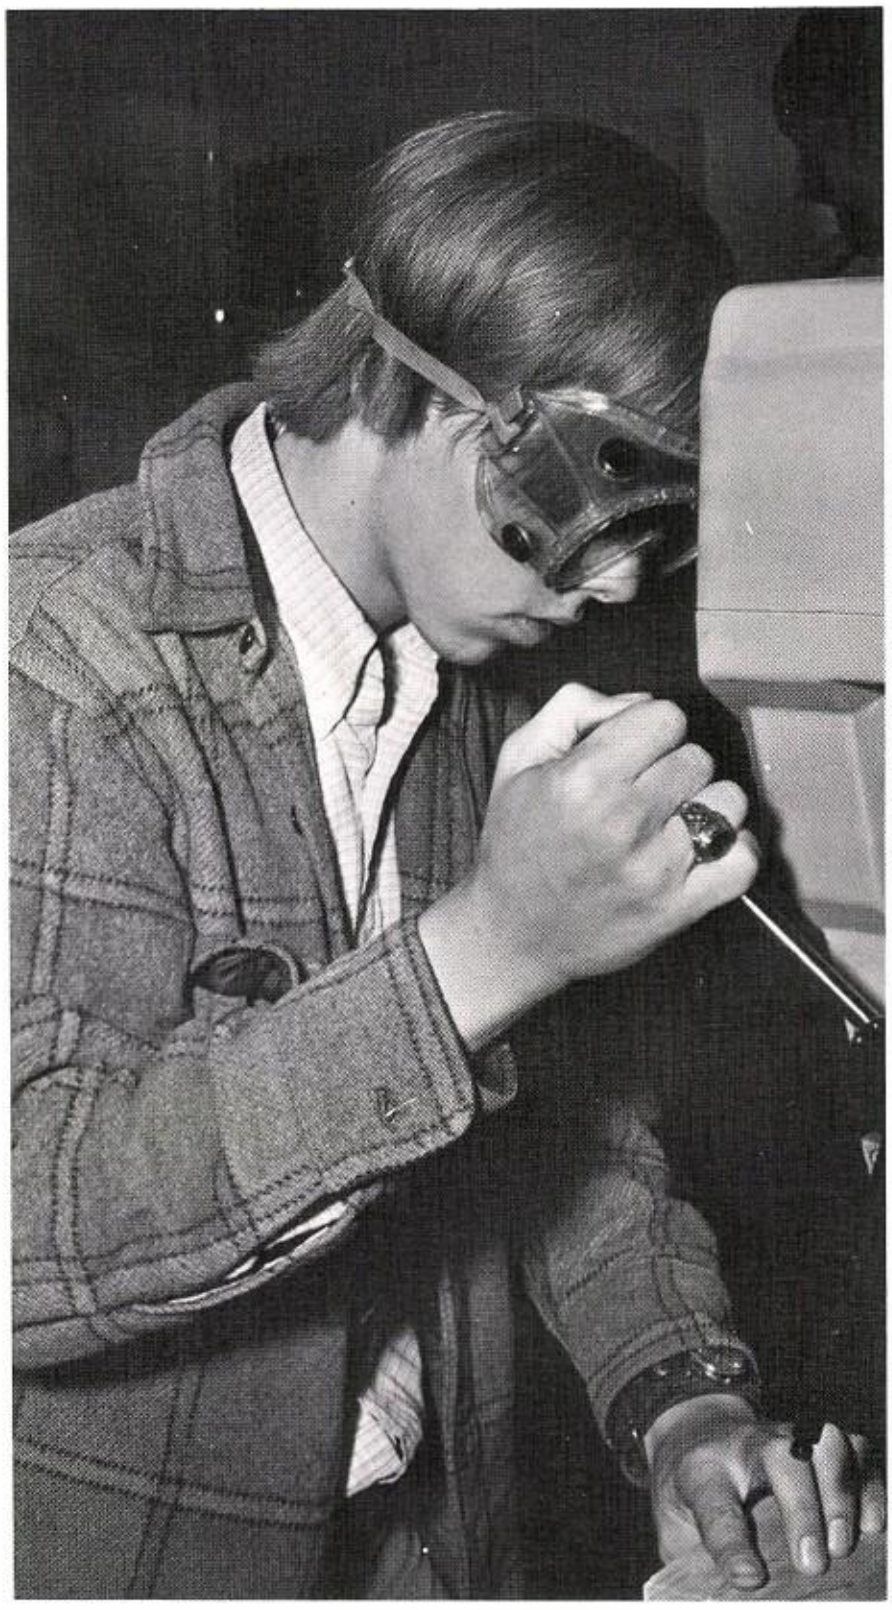
there is a complex of individuals.





The closed-in world of 'No-Exit' has become one that implants





a desire for change within us.

Shying away from tradition, we search
for fresher activities —
to see who in the world we might be.

And Consent
The price is paid by

The ruler depends on consent;
The ruled on advice.
Each must accept

Isn't It Fine to Stand in Line?

Lines,
snaking out the
counselors' office.
Lines of students looking
for leadership down
life's path.
Meanwhile,
office staff explodes
into a mass of confusing
computer cards and
attendance numbers.
Numbers mean little
to a Mrs. Hobbs, who
cares more for the
individual and his needs;
whether it be a headache
or a life on the line.

Ignorance

students who know
"everything" about
the language.
"Why do I have to study
this? I can already talk!"
"But how well can you
express yourself?"
"Oh, yeah . . ."
Nouns, verbs, adjectives
predicates, complex
sentences
Term themes!
"Can I borrow a dictionary?"

"Do you have anything heavy?"

New facets of English come to life and ACT teachers work to bring out the many interesting angles of language and civilization. *Rebelation* and *Yee-Haw* sponsors try to teach talented young writers and artists the responsibilities of producing a publication. Through drama and speech, hopeful actors and actresses learn the basics of their art. American Thought and Culture provides an opportunity for juniors to associate their English studies with history and library resource materials.

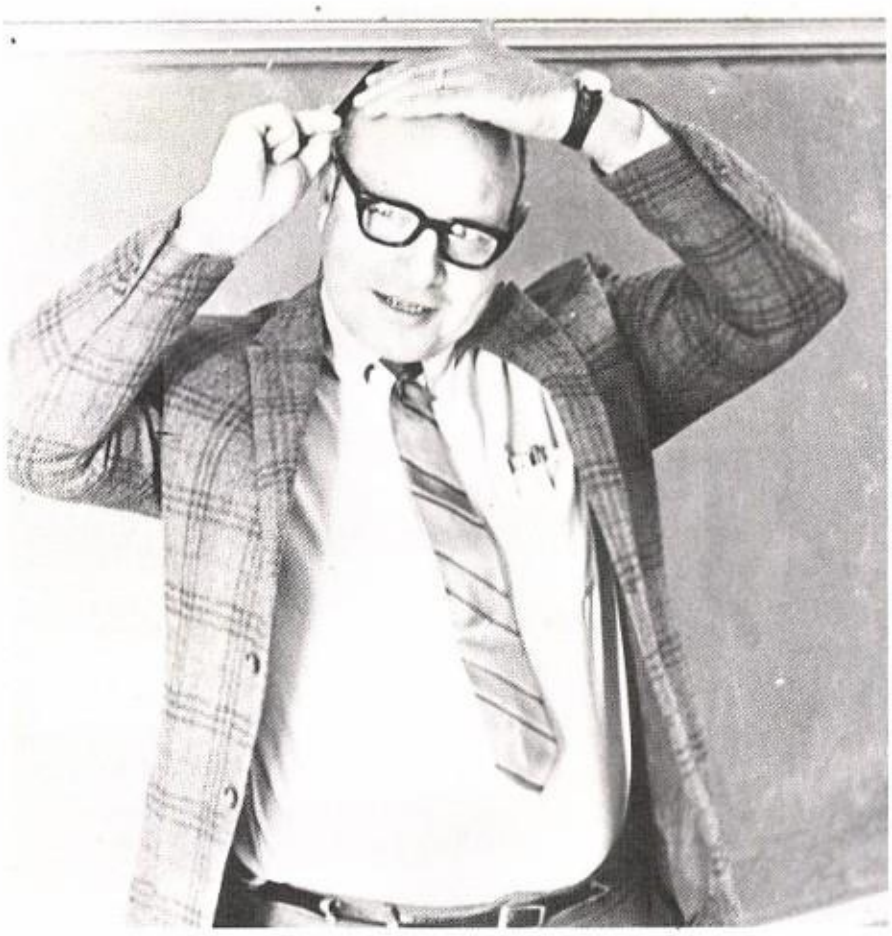
MIND —
The puzzle of numbers
fields, sets and systems.
The mind's eye is blind
but she teaches it to see
symbols for every thought
that man has known.
A language to express
his dreams and schemes.
A perfect world where
every rule fits.
WORLD —
A spinning globe
24 hours to a day,
365 days to a year.
Math is the number of hours
in a year, minutes
in a day, feet in a mile.
Every day is numbers
It rules in business,
science, plumbing and
annuals, too.



Mr. Allen seems to suggest a theoretical problem in math, perhaps to calculate the amount of shampoo he would use in a year.

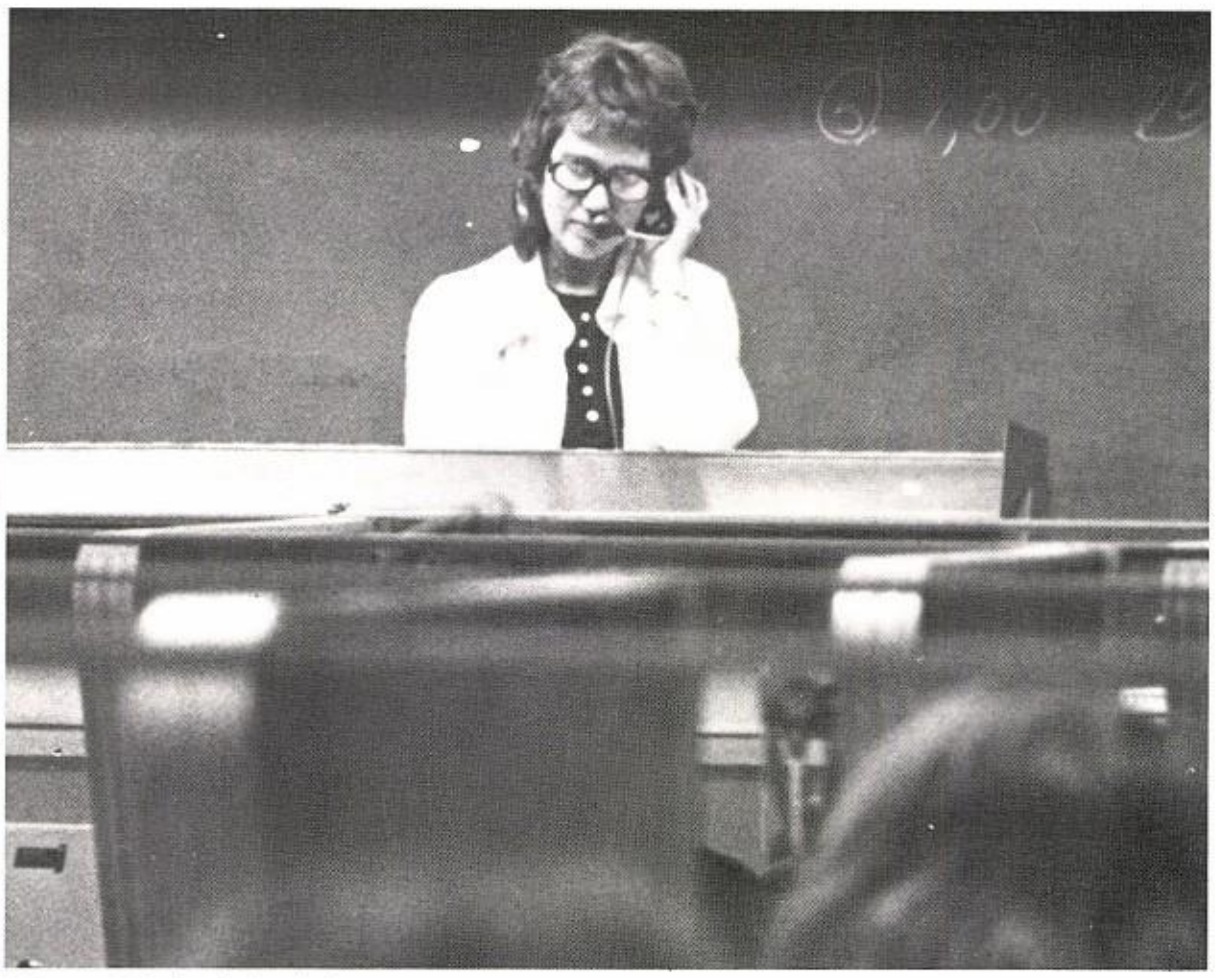
Languages Forge Understanding

Teacher San Juan struggles with students in two languages — Spanish and English.



"My, my, I think I feel a draft."

Walls —
Two people, individuals
face to face, looking but
not seeing, listening but
not hearing.
One speaks but nothing comes.
Another answers but neither
finds understanding.
Communications —
The wall is burst assunder
comes crashing down.
A third person is speaking.
He is the link, the bridge
between the strangers.
Through him they find
understanding.
And what is it worth —
it is worth two friends,
or aid for the stricken,
or a little less hate
or maybe all he has done
is stall the atomic bomb

Student Council Acts on Student Problems

SUCCESS —
Find what's wanted and
needed — talk to students
and sometimes even listen
when they answer. Then
the plan; what are the
possibilities?
It will be presented in a
sea of confusion.
But slowly the air is
cleared and they vote,
and if passed, then the
work; a fever of work but
fewer hands are raised.
And when it is done, we
wait. And
if it works, "right on!"
FAILURE —
And if it doesn't
Then what went wrong?

Dedication —
Before any blood-red taint

the first centurian is

And as they drill, the sun
rises and strikes the metal

They step to the command
of their Drum Major;
Number One —
And then the battle
legions pass before,
Green and Black, Blue

then the Red, White and Blue.

Languages Link Cultures

Exchange —
The trading of hands
across a border
Two people become friends
and prove that in this world
made small by jets, satellites
and missiles,
There is still room for love.
Language —
And the bridge is learning
to understand by word
and deed and life.
And the willingness to accept
that we all may be different
together.
And together we will
bring the Tower
of Babel
down.

Latin Comes Alive

The Ancient —
By no child is Latin spoken,
now no family passes it on.
Why do they study if it's gone?
Scholarship —
By its words the ancient writers
left the record of the glory of
Rome.
Caesar leads a mighty army
civilizing hoards of savages
by the power of the mind
alone.
I am the king, the king you see,
the king of this great forest.
So do not sore afraid be,
when I, for soothe, do roareth.

Mr. Housewright does not need an explanation.

Art Club Searches Identity

Studio —
Carefully each loving stroke

Critics see the technical

Art is in the artist's heart;
the strokes are his expression
for life and death and all
that's in his heart.
Bazaar —
Others come to see the work,
to buy away the artist's heart.

It is putting

ICT-DE Build Skills For Jobs

Learning —
Coming together in common
bond of interest,
Each one bringing his own
individual skills.
We study the paths to the
future
And the doors that will open.
To teach —
We are together because we
wish to open
The door for others as it
was opened to us.
And so we truly learn from
those we teach
And that is the best lesson.

This is a hand-me-down world, but by working together and educating ourselves it might not be so worn out.

Students Are Paid To Learn

An old way —
The apprentice bends over
His masters arm
To see the skill of his hand.
And he spends his days in
learning the trade
That one day he'll live by.
Returns —
Today the apprentice returns
to spend his time divided
between hours of school and
work.
Divided between doctors
and teachers or, maybe,
an artist's work.
And best of all, being
paid for learning.

Loyalty

quality. It is more than
being school-spirited. It
is, most of all, loyalty
to oneself. Mr. and Miss

who have shown this loyalty

sincere friendliness,

fulness, their genuine
talent for making others

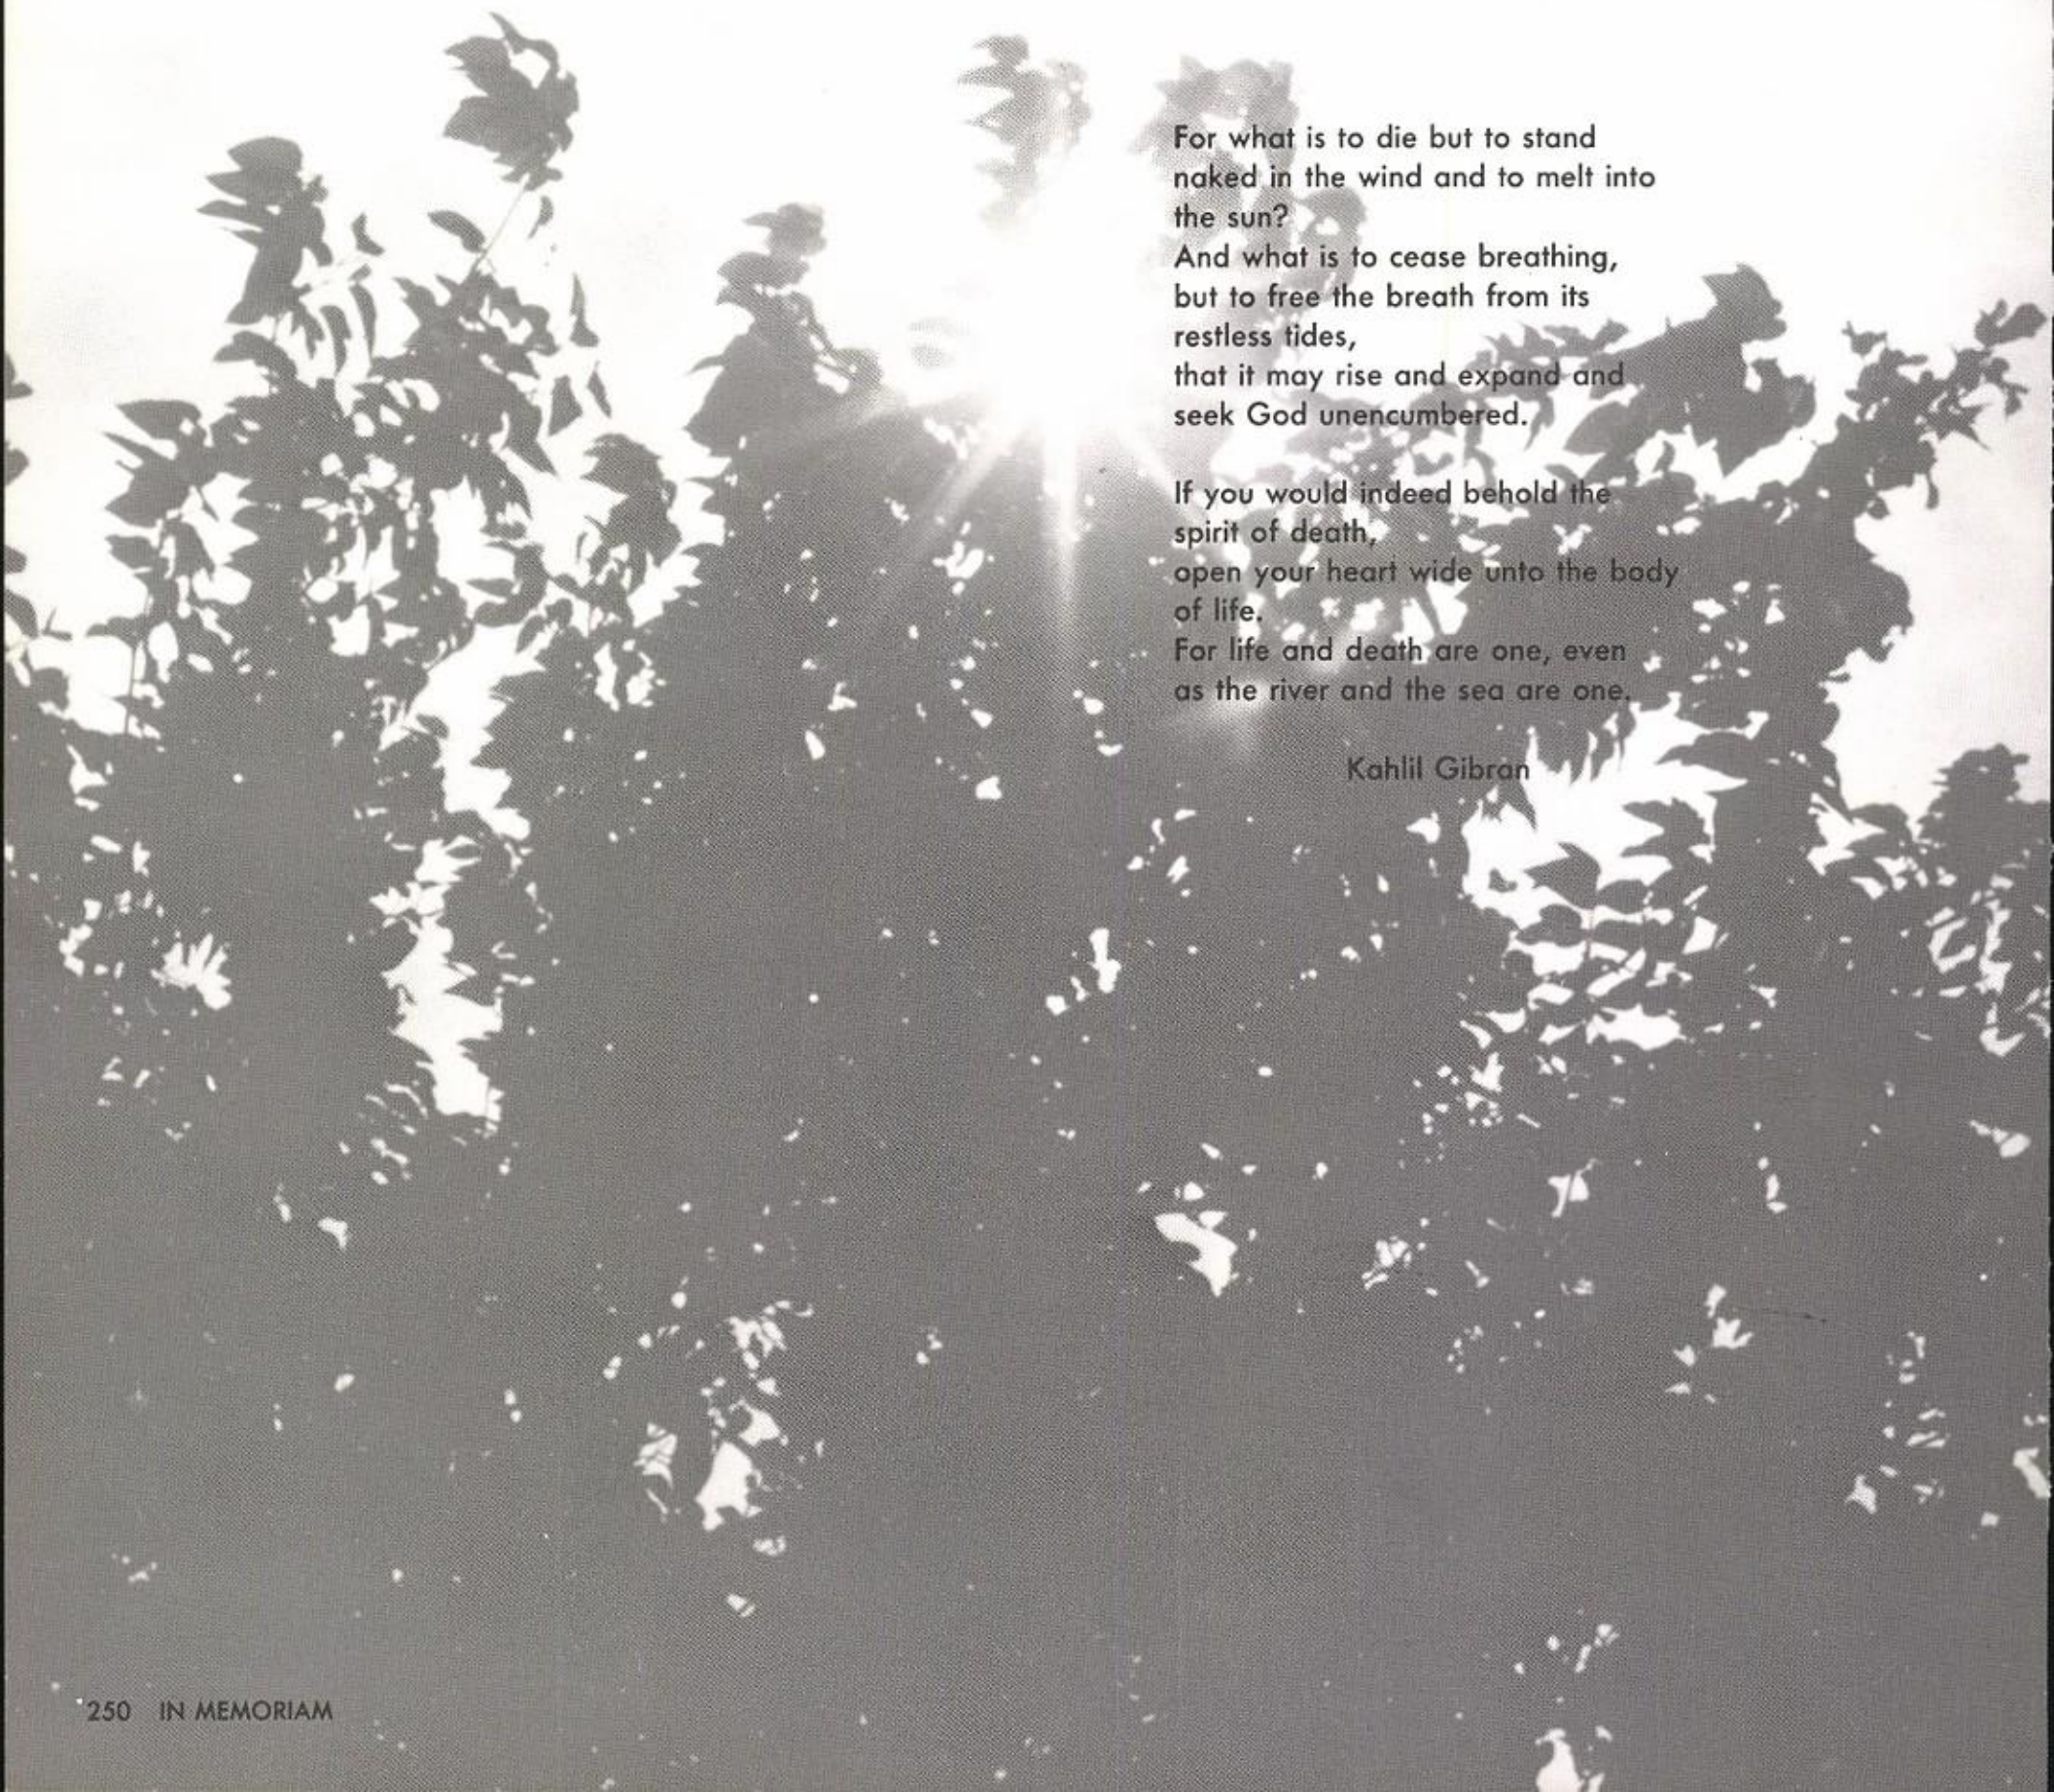
In Memoriam

Cindy Emig

Rob Merriman

Ronnie Ingram

Ricky Deam



For what is to die but to stand
naked in the wind and to melt into
the sun?
And what is to cease breathing,
but to free the breath from its
restless tides,
that it may rise and expand and
seek God unencumbered.

If you would indeed behold the
spirit of death,
open your heart wide unto the body
of life.
For life and death are one, even
as the river and the sea are one.

Kahlil Gibran
